CHAPTER 1

COMPONENT A: MAYOR'S FOREWORD

To be inserted

Alderman Truman Prince

EXECUTIVE MAYOR

COMPONENT B: EXECUTIVE SUMMARY

1.1 MUNICIPAL MANAGER'S OVERVIEW

To be inserted

<mark>J Booysen</mark>

MUNICIPAL MANAGER

1.2 MUNICIPAL OVERVIEW

This report addresses the performance of Beaufort West Municipality (BWM) in the Western Cape in respect of its core legislative obligations. Local government must create the participatory framework that defines and enhances the relationship between elected leaders and their communities. This requires that the Council of the municipality provides regular and predictable reporting on programme performance and the general state of affairs in their locality.

The 2014/15 Annual Report reflects on the performance of the BWM for the period 1 July 2014 to 30 June 2015. The Annual Report is prepared in terms of Section 121(1) of the Municipal Finance Management Act (MFMA), in terms of which the Municipality must prepare an Annual Report for each financial year.

1.2.1 VISION AND MISSION

The BWM committed itself to the following vision and mission:

Vision:

"Beaufort West, land of space in the Great Karoo, strives to improve the lives of all its residents by being a sustainable, expanding and safe town"

Mission:

To reflect the will of the South African people as reflected in the Constitution and by Parliament:

- An effective municipal system, maintained at the highest standard
- > To create affordable and sustainable infrastructure for all residents and tourists
- Business initiatives and the optimalisation of tourism (local and foreign)
- > Empowerment of personnel, management and Council members for effective service delivery
- Creating and maintaining an effective financial management system
- To develop the region as the sport and recreational mecca of the Karoo
- > To create a crime-free, safe and healthy environment
- Agricultural business to improve the potential for job creation
- Creation of employment to reduce unemployment to acceptable levels
- To reduce poverty and promote the empowerment of women
- To involve HIV/Aids sufferers in economic and household responsibilities

1.3 MUNICIPAL FUNCTIONS, POPULATION AND ENVIRONMENTAL OVERVIEW

1.3.1 POPULATION

It is estimated that about 49 586 (88%) of the people living in the Central Karoo District — with a total population of 56 323 — resides within the Beaufort West municipal area. The increase in the number of people residing in the municipal area, is because of the merging of administrative areas, i.e. the Beaufort West municipal area and the former District Management Area (DMA) and in-migration from other provinces. The total population in 2001, was

43 284 people of which 6 183 resided in the then DMA. Hence, the population increased at a relatively high rate over the 10 years from 2001 to 2011, viz. from 43 284 to 49 586 (or about 12%). In the context of a remotely located semi-arid rural area, this represents a significant growth of more than 6 000 people over a ten-year period.

It is estimated that the annual population growth since 2001 has been 1.36%. Although population growth is expected to slow down somewhat, it will still have a significant impact on the demand and the level of service delivery (especially in Beaufort West). The population density is a very low 0.3 people per square kilometer and the urban segment of the municipal population is expected to rise.

The table below illustrates the population in the municipal area since 2001:

Population	2011	2011	
Number of people residing in the Beaufort West municipal area	43 284	49 586	
Census 2001 and 2011			

Table 1.: Demographic Information of the Municipal Area – Total Population

1.3.2 POPULATION BY RACE

The total population in the Beaufort West municipal area in 2011, was 49 586, of which 16.3% were black African, 73.5% were Coloured, 9.2% were White and 'other' 0.5%.

Year	Black African	Coloured	Indian or Asian	White	Other	Total
2001	6 923	31 792	42	4 528	0	43 284
2011	8 103	36 433	241	4 539	270	49 586
Census 2001 and 2011						

Table 2.: Population by Race

1.3.3 POPULATION BY AGE

The table below includes data about the composition of the population per age category. In this regard, the population pyramid shows that a significant portion of the population is younger than 20 years, which is not uncommon for a rural community. It is, however, a concern that so few people (the 'employables') between the ages of 20 and 40, resides in the area.

Year	0 – 18	19 – 30	31 – 40	41 – 50	51 – 65	66 – 120	Total
2001	17 938	7 848	6 048	4 896	4 321	2 233	43 284
2011	19 132	9 162	6 508	6 030	6 091	2 663	49 586
Census 2001 and 2011							

Table 3.: Population by Age

1.3.4 HOUSEHOLDS

The number of households within the municipal area increased from 13 603 households in the 2013/14 financial year to 14 102 households in the 2014/15 financial year. This indicates an increase of about 3.54% in the total number of households within the municipal area over the two year period and represents a household size of about 3.7 people per household (if Census 2011 is used).

Households	2011/12	2012/13	2013/14	2014/15
Number of households	12 084	13 384	13 603	14 102

Table 4.: Total Number of Households

1.3.5 DEMOGRAPHIC INFORMATION

a) Municipal Geographical Information

Towering mountains and rolling plains welcome you to the Beaufort West region. Beaufort West, the oldest and largest town in the Central Karoo, lies in an ancient area once a swamp, now a semi-desert area named "thirst land", making it rich in history. This ancient area of the Karoo is considered one of the world's most interesting arid zones and holds intrigue for the scientist, the historian and the eco-tourist; fondly referred to as place of the pioneers. In February 1837, the BWM became South Africa's first and therefore oldest municipality. It is the centre of an agricultural district based mainly on sheep farming and meat production, and is strategically positioned on the N1 national road, which links Cape Town with the interior and northern parts of South Africa, maintaining a minimal but steady amount of growth due to the high volume of passing road traffic.

The nearby Karoo National Park is a national asset which aims to reclaim the original flora of the Karoo and is one of the chief tourist attractions in the region, boasting a wide variety of endemic wildlife. The municipal area covers approximately 16 330.10 square kilometer with the town situated 851 meters above sea level between the Gamka and Kuils Rivers. The town lies just south of a ridge of hills and north of the Nuweveld Mountains in the Central Karoo where rocks date back some 230 million years. Not only was the first reptile fossil discovered near here, in what has subsequently been described as the world's richest collecting ground for these fossils, but the town's historic centre displays an eclectic mix of historical architecture that makes a stop-over here essential.

Summer rains normally begin with light showers around October. Rain is very sporadic and mostly occurs in the form of thunderstorms. Snowfalls are known to sometimes occur as late as September and the first snowfalls reached ground level in 2011. Temperatures increase dramatically during November and remain high until February, reaching highs of between 38 and 48 degrees Celsius before they finally decrease by April. The midwinter months of June and July are cold and dry with temperatures falling well below zero.

In 2000, the smaller rural towns of Merweville and Nelspoort were incorporated into the BWM, and since June 2011 the town of Murraysburg has also been a district management area (DMA) of the BWM.

b) Wards

The municipality is structured into the following 7 wards:

Ward	Areas
1	Murraysburg and Murraysburg rural areas
2	Nelspoort, Nelspoort rural, Noord Einde, part of Hillside, Central Town, part of rural areas of Beaufort west, part of Hospital Hill
3	Part of Rustdene, Essopville, Nieuveld Park
4	Part of Kwa Mandlenkosi, De Lande, part of Central town, Southern part of Hospital Hill
5	Part of Kwa Mandlenkosi, part of Rustdene, Paddavlei, Hooyvlakte, New Lands, New Town
6	Part of Rustdene, Prince Valley
7	Part of rural Beaufort West, part of Hillside I and II, Toekomsrus, Merweville, rural parts of Merweville

Table 5.: Municipal Wards

Below is a map that indicates the municipal area and wards:

Figure 1.: Beaufort West Municipal Area and Wards

Merweville

Merweville is a small town situated 160km south-west of Beaufort West and 40km from Prince Albert Road station. This Central Karoo town lies in a picturesque area of plains often likened to the Nevada Desert region of the United States. It was established around 1897 on the farm of Jacobus van der Bijl, a jack of many trades: farmer, shopkeeper, postmaster, magistrate and justice of the peace. He built a church that was later used as a school. Merweville lies in the Koup, which means "caul fat", and was so named by early indigenous inhabitants who felt that the patches of golden veld grass, interspersed by dark brown soil, resembled the fat and blood vessels surrounding a sheep's liver. The reason for this name is quite apparent at the onset of winter when the veld is less lush and the gold and brown patches become evident. Merweville maintains a great deal of the charm of earlier days and is an ideal spot to rest, relax and unwind from the pressures of modern-day city life.

Murraysburg

Murraysburg, a typical old-world Great Karoo town that lies 160km north-eastt of Beaufort West, became Ward 1 with the new demarcation and as a result became a DMA of the BWM, after it was previously a DMA of the Central Karoo District Municipality. Murraysburg, located at the foot of the Sneeuberg Mountains in a scenic mix of mountains and plains, offers tranquility for environmentalists and eco-watchers. In the late 18th century a bloody and vicious war of revenge and retaliation raged for many years between the San and the farmers. Farms were attached, houses set alight, herdsmen murdered. Farmers went out on punitive missions and killed many of the San, who hunted the livestock of the farmers. The region was very unsettled by stock theft, murders and reprisal expeditions against the San. At the beginning of the 19th century, the San began to move towards the Kalahari and eventually the farm *Eenzaamheid* was bought from Mr Kootjie Burger. This farm became the town of Murraysburg. It was a "church town", meaning that the Dutch Reformed Church (DRC) exercised full control over the town and its inhabitants. The new town was named after the Reverend Andrew Murray, minister of the DRC in Graaff-Reinet. The "burg" derives from the Dutch word meaning "place of safety".

Nelspoort

Nelspoort, situated 56km north of Beaufort West, is a small community in the depths of the Central Karoo. The Bushmen and Khoi visited the surrounding koppies and left their mark in rock engravings. A long time after the Bushmen, the area became a haven for those with chest ailments. As early as 1836, Beaufort West's dour but well loved Dr John Christie appealed to people to "breathe" the air of the Nuweveld Mountains. White farmers later established their homes here and for a while the sanatorium brought peace and healing to many tuberculosis (TB) sufferers. Established in 1924 through the efforts of Dr Alfred Jasper Anderson and John Garlick, a philanthropist, the Nelspoort area was identified as an ideal location for "the first chest hospital on the African continent." By 1969, the first psychiatric patients were admitted. The disastrous socio-economic effects of tuberculosis had decreased by then and the disease could be treated with drugs at home. The old magic mountain method of healing with good food and fresh air was a thing of the past and thus Nelspoort devoted itself to psychiatric patients, maintaining only one TB ward. Today, both roles have declined.

c) Key Economic Activities

Agriculture forms the backbone of Beaufort West economy and accounts for the largest labour to date. Despite the harsh climate and poor carrying capacity of the veldt, it still offers opportunities for growth and employment creation. The municipality is dependent upon the following main economic activities:

Key Economic Activities	Description
	Fresh meat (mutton, game, karoo lamb, ostrich, goat, beef)
	Processed meat (biltong, cold meats, "droë wors")
	Fresh fruit and vegetables (figs, olives, apricots, grapes, herbs)
Agriculture and agri-processing	Processed fruit and vegetables (chutney, dried figs, olives, jams)
	Animal by-products (skins, hides, wool, mohair, milk)
	Processed animal by-products (leather products, dairy products, wool and mohair products)
	Other (traps for problem animals – manufacturing and servicing)
Transportation	The transportation sector in the Central Karoo is one of the strongest contributors to the regional economy and completely dominated by Beaufort West, which contributes 86.4% of the total GGP in this sector.
Tauriam	Wide-open spaces, magnificent landscapes, panoramas and the sense of solitude attractions
Tourism	Historic and cultural attractions

Table 6.: Key Economic Activities

1.4 SERVICE DELIVERY OVERVIEW

1.4.1 Basic Services Delivery Performance Highlights

Highlight	Description
Upgrading of Nelspoort treatment works.	New borehole was developed to ensure sustainable water supply
Implementation of Nelspoort bulk water.	New borehole developed to ensure sustainable water supply
Murraysburg water treatment works - disinfection of water.	Disinfection units installed at boreholes to ensure safe drinking water to the community
Murraysburg – upgrade of Perl street.	Existing gravel road was upgraded to a paved road with associated stormwater drainage
Mandlenkosi Dliso and Matshaka Street upgrade	Gravel road upgraded to a paved road
Sewerage pump station.	New sewerage pump station constructed to ensure sufficient sewerage services
Low cost housing at Mandela Square.	235 units of 40 square meters houses built
Reticulation of 245 houses.	Electrical network installed for 245 houses
Flood lights: Merweville.	4 x 20 scissor masts with 1000 watt metal halide luminaires were installed which will improve the quality of life for the residents of Merweville. This is their only sport facility in town.
Flood lights: Rustdene Sport fields.	6 x 20 scissor masts LED luminaires were installed which will improve the quality of life for the residents of Rustdene
Greater Beaufort West: installation of high mast lights.	Installation of 1 x 30m masts in Strelitzia Avenue and in 10 th Avenue, Hillside. It will improve the quality of life for the residents in Hillside by improving safety.

Table 7.: Basic Services Delivery Highlights

1.4.2 BASIC SERVICES DELIVERY CHALLENGES

Service Area	Challenge	Actions to address
Water	Long term bulk water – municipality cannot provide co- funding.	Budget for co- funding
Waste Water (Sanitation)	Upgrading of Murraysburg waste water treatment.	Budget for co-funding
	High cost of electricity.	Implement energy efficient products to reduce the energy consumption of electrical installations
	Service delivery	To improve service delivery, we will have to appoint more qualified personnel and manage the maintenance of services and networks more closely
Electricity	Funding	More funds must be made available for the maintenance of existing and ageing networks. National Energy Regulators South Africa (NERSA) benchmarks must be followed.
	Discipline	The municipality must implement and drive the disciplinary processes to ensure discipline is effectively maintained within the organisation
Waste management	Fleet – obsolete refuse collection trucks.	Allocation of budget for the purchase of the correct standard of fleet to manage landfill site properly
	Management of the landfill site - Illegal dumping.	Education programs for community

Table 8.: Basic Services Delivery Challenges

1.4.3 PROPORTION OF HOUSEHOLDS WITH ACCESS TO BASIC SERVICES

Description	2013/14	2014/15
Electricity service connections.	100%	100%
Water - available within 200m from dwelling.	98%	98%
Sanitation - Households with at least Ventilated Improved Pit (VIP) services.	96%	98%
Waste collection - kerbside collection once a week.	100%	100%

Table 9.: Households with Minimum Level of Basic Services

1.5 FINANCIAL HEALTH OVERVIEW

1.5.1 FINANCIAL VIABILITY HIGHLIGHTS

Highlight	Description
Achieved an average of 91.5% collection rate.	The municipality started the first quarter of the financial year with a very low collection rate but managed to achieve a 12 month moving average of 91.5%

Table 10.: Financial Viability Highlights

1.5.2 FINANCIAL VIABILITY CHALLENGES

Challenge	Action to address
The municipality recorded significant amounts of overdue debtors at year end.	Improve the credit control and debtors management in respect of overdue debtors and write off uncollectible debts
Low revenue collection.	Implement strict revenue collection procedures
Capacity shortages and the inability to attract skilled officials for specialised.	Processes will be implemented to attract suitably skilled officials

Table 11.: Financial Viability Challenges

1.5.3 NATIONAL KEY PERFORMANCE INDICATORS – MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT (RATIOS)

The following table indicates the municipality's performance in terms of the **National Key Performance Indicators** required in terms of the Local Government: Municipal Planning and the Performance Management Regulations of 2001 and section 43 of the MSA. These key performance indicators are linked to the **National Key Performance Area** namely **Municipal Financial Viability and Management**.

KPA and Indicator	2013/14	2014/15
Debt coverage ((Total operating revenue-operating grants received):debt service payments due within the year)	31%	33.30%
Service debtors to revenue – (Total outstanding service debtors: revenue received for services)	31.8%	38.3%
Cost coverage ((Available cash+ investments): Monthly fixed operating expenditure	1:0.7	1:0.5

Table 12.: National KPI's for Financial Viability and Management

1.5.4 FINANCIAL OVERVIEW

Details	Original budget	Adjustment Budget	Actual

Table 15.: Audit Outcomes

CHAPTER 2

Good governance has 8 major characteristics. It is participatory, consensus oriented, accountable, transparent, responsive, effective and efficient, equitable and inclusive and follows the rule of law. It assures that corruption is minimized, the views of minorities are taken into account and that the voices of the most vulnerable in society are heard in decision-making. It is also responsive to the present and future needs of society.

COMPONENT A: POLITICAL AND ADMINISTRATIVE GOVERNANCE

2.1 National Key Performance Indicators - Good Governance and Public Participation

The following table indicates the municipality's performance in terms of the National Key Performance Indicators required in terms of the Local Government: Municipal Planning and the Performance Management Regulations 796 of 2001 and section 43 of the MSA. This key performance indicator is linked to the National Key Performance Area - Good Governance and Public Participation.

KPA and Indicators	Municipal Achievement	Municipal Achievement
KFA and indicators	2013/2014	2014/15
The percentage of a municipality's capital budget actually spent on capital projects identified for a particular financial year in terms of the municipality's integrated development plan (After roll over projects)	89	211

Table 16.: National KPIs - Good Governance and Public Participation Performance

2.2 GOVERNANCE STRUCTURE

2.2.1 POLITICAL GOVERNANCE STRUCTURE

The Council performs both legislative and executive functions. They focus on legislative, oversight and participatory roles, and have delegated its executive function to the Executive Mayor and the Mayoral Committee. Their primary role is to debate issues publicly and to facilitate political debate and discussion. Apart from their functions as decision makers, Councillors are also actively involved in community work and the various social programmes in the municipal area.

a. Council

The Council comprises of 13 elected Councillors before the Local Government elections in May 2011, made up from 7 Ward Councillors and 6 Proportional Representation (PR) Councillors. The portfolio committees are made up of Councillors drawn from all political parties.

Below is a table that categorise the Councillors within their specific political parties and wards for the 2014/15 financial year:

Council Members	Capacity	Political Party	Ward representing or proportional	Number of meetings attended
HT Prince	Executive Mayor	ANC	Proportional	7
L Deyce	Councillor	ANC	Ward 1	6
AM Slabbert	Councillor	DA	Ward 2	8

Council Members	Capacity	Political Party	Ward representing or proportional	Number of meetings attended
G de Vos	Councillor	ANC	Ward 3	9
SM Motsoane	Speaker	ANC	Ward 4	9
M Furmen	Councillor	ANC	Ward 5	8
GP Adolph	Fulltime Councillor	ANC	Ward 6	8
J Bostander	Councillor	ANC	Ward 7	7
EJA Beyers	Deputy Executive Mayor	ICOSA	Proportional	7
GT Murray	Councillor	DA	Proportional	7
RA van der Linde	Councillor	DA	Proportional	7
DE Welgemoed	Councillor	DA	Proportional	8
AD Willemse	Councillor	DA	Proportional	8
	*Deputy Executive Mayo	or: Councillor EAJ Beyers ap	ppointed on 06 August 2015	

Table 17.: Council

The table below indicates the Council meetings attendance for the 2014/15 financial year:

Meeting dates	Council Meetings Attendance	Apologies for non-attenance
02 September 2014	10	3
23 September 2014	10	3
09 December 2014	12	1
27 January 2015	12	1
25 February 2015	10	[2] 1
31 March 2015	12	1
29 May 2015	12	1
28 June 2015	11	[1] 1
Numbers between brack	rets indicate non-attendance without apolog	gy

Table 18.: Council Meetings

b) Executive Mayoral Committee

The Executive Mayor of the Municipality, Alderman T Prince, assisted by the Mayoral Committee, heads the executive arm of the Municipality. The Executive Mayor is at the centre of the system of governance, since executive powers are vested in him to manage the day-to-day affairs. This means that he has an overarching strategic and political responsibility. The key element of the executive model is that executive power is vested in the Executive Mayor, delegated by the Council, and as well as the powers assigned by legislation. Although accountable for the strategic direction and performance of the Municipality, the Executive Mayor operates in concert with the Mayoral Committee.

The name and portfolio of each member of the Mayoral Committee is listed in the table below for the period 01 July 2014 to 30 June 2015:

Name of member	Capacity
HT Prince	Executive Mayor
EAJ Beyers	Deputy Executive Mayor
GP Adolph	Fulltime Councillor

Table 19.: Mayoral Committee Members

The table below indicates the dates of the committee meetings and the number of reports submitted to Council for the 2014/15 financial year:

Meeting date	Number of reports submitted to Council
18 August 2014	
29 October 2014	3
10 April 2014	

Table 20.: Executive Mayoral Committee Meetings

c) Portfolio Committees

The portfolio committees for the 2014/15 financial year term and their chairpersons were as follows:

Financial Services and Development Committee			
Chairperson	Other members	Number of minutes submitted to Council	Meeting Dates
	G de Vos		
	M Furmen		02 September 2014
HT Prince	EAJ Beyers	3	10 November 2014
	DE Welgemoed		03 February 2014
	R van der Linde		
	Corporate Services and Soc	ial Development Committee	
	GP Adolph	3

Chairperson	Other members	Number of minutes submitted to Council	Meeting Dates
	HT Prince		
	SM Motsoane		
	DE Welgemoed	1	
	AD Willemse	<u></u>	

Table 21.: Portfolio Committees

2.2.2 ADMINISTRATIVE GOVERNANCE STRUCTURE

The Municipal Manager is the Accounting Officer of the Municipality. He is the head of the administration, and primarily has to serve as chief custodian of service delivery and implementation of political priorities. He is assisted by his direct reports, which constitutes the Management Team, whose structure is outlined in the table below:

Name of Official	Dt	Performance agreement signed
Name of Official	Department	Yes/No
J Booysen	Municipal Manager	Yes
Vacant since (1 September 2014)	Director: Community Services	No
F Sabbat	Director: Financial Services	Yes
AC Makendlana	Director: Corporate Services	Yes
JCL Smit	Director: Engineering Services	Yes
RE van Staden	Director: Electro Technical Services	Yes

Table 22.: Administrative Governance Structure

COMPONENT B: INTERGOVERNMENTAL RELATIONS

2.3 INTERGOVERNMENTAL RELATIONS

In terms of the Constitution of South Africa, all spheres of government and all organs of state within each sphere must co-operate with one another in mutual trust and good faith fostering friendly relations. They must assist and support one another; inform and consult one another on matters of common interest; coordinate their actions, adhering to agreed procedures and avoid legal proceedings against one another.

a) Intergovernmental Structures

To adhere to the principles of the Constitution as mentioned above the municipality participates in the following intergovernmental structures:

Name of Structure	Members	Outcomes of Engagements/Topics Discussed
Municipals Managers Forum	SALGA, neighbouring municipalities' Municpal Managers	District based initiatives
Premiers Coordinating Forum	Municipal Manager and the Executive Mayor	Responsive, effective and efficient Local Government System
SALGA Working Groups	All Councillors are participating in the different Salga working groups	Cooperative governance, consultation and coordination and participative decision-making

Name of Structure	Members	Outcomes of Engagements/Topics Discussed
IDP Managers Forum	Acting IDP Manager	IDP process plans adopted, progress wrt , Joint planning initiatives as agreed by the municipality and sector departments
LED Managers Forum	Acting IDP manager	Department of Economic Development to assist in review of the LED strategy
SCM Forum	Manager Supply Chain Management	Enhanced municipal financial and administrative capability
IWM Forum	Waste: Superintended	Waste minimization and campaigns
IDP Indabas	Acting IDP Manager and all directors	Agree on joint priorities and commit resources to implement these priorities
Provincial Public Participation and Communication Forum (PPPCOM)	Personal Assistant to the Speaker	Ensure the coordinated nd coherent implementation and establishment of the ward participatory process to encourage the involvement of communities and organisations in matters of local government
Provincial Skills Development Forum	Skills Development Facilitator	Ensure and improved traing delivery system in the province
HR Practitioner's Forum	Manager Human Resource	Educational attainment, skills development, science and innovation and labor market / employment policies

Table 23.: Intergovernmental Structures

b) Joint Projects and Functions with Sector Departments

All the functions of government are divided between the different spheres namely National, Provincial and Local. The municipality therefore share their area and community with other spheres of government and their various sector departments and has to work closely with national and provincial departments to ensure the effective implementation of various projects and functions. The table below provides detail of such projects and functions:

Name of Project/ Function	Expected Outcome/s of the Project	Sector Department/s involved	Contribution of Sector Department
National War on Poverty	Reduce poverty in identified poorest wards in municipal area	National Department of Rural Development	Established steering committee with municipality and other provincial sector departments

Table 24.: Joint Projects and Functions

COMPONENT C: PUBLIC ACCOUNTABILITY AND PARTICIPATION

Section 16 of the Municipal Systems Act (MSA) refers specifically to the development of a culture of community participation within municipalities. It states that a municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance. For this purpose it must encourage and create conditions for the local community to participate in the affairs of the community. Such participation is required in terms of:

- > the preparation, implementation and review of the IDP;
- establishment, implementation and review of the performance management system;
- monitoring and review of the performance, including the outcomes and impact of such performance; and
- preparation of the municipal budget.

2.4 PUBLIC MEETINGS

	05 May 2015
	06 May 2015
	07 May 2015

Table 25.: Public Meetings

2.5 WARD COMMITTEES

The ward committees support the Ward Councillor who receives reports on development, participate in development planning processes, and facilitate wider community participation. To this end, the municipality constantly strives to ensure that all ward committees function optimally with community information provision; convening of meetings; ward planning; service delivery; IDP formulation and performance feedback to communities.

Table 32.: Ward 7 Committee Meetings

2.6 FUNCTIONALITY OF WARD COMMITTEE

The purpose of a ward committee is:

- > to get better participation from the community to inform Council decisions;
- > to make sure that there is more effective communication between the Council and the community; and
- to assist the ward Councillor with consultation and report-backs to the community.

Ward committees should be elected by the community they serve. A ward committee may not have more than 10 members and women should be well represented. The Ward Councillor serves on the ward committee and act as the chairperson. Although ward committees have no formal powers, they advise the ward Councillor who makes specific submissions directly to the administration. These committees play a very important role in the development and annual revision of the integrated development plan of the area.

The table below provides information on the establishment of Ward Committees and their functionality:

Ward Number	Committee established Yes / No	Number of reports submitted to the Speakers Office	Number meetings held during the year	Committee functioning effectively (Yes / No)	
1	Yes	12	12	Yes

2.7 REPRESENTATIVE FORUMS

2.7.1 LABOUR FORUM

The table below specifies the members of the Labour Forum for the 2014/15 financial year:

Name of representative	Capacity	Meeting dates
Alderman HT Prince	Employer: Councillor	
J Bostander	Employer: Councillor	20 August 2014
G de Vos	Employer: Councillor	20 August 2014
GP Adolph	Employer: Councillor (Chairperson)	

Name of representative	Capacity	Meeting dates
GT Murray	Employer: Councillor	
J Booysen	Employer: Municipal Manager	
JCL Smit	Employer: Director Engineering Services	
H Maans	Labour: SAMWU Chairperson	
A Sopete	Labour: SAMWU (Deputy)	
TJ Jolingana	Labour: SAMWU	
SD Gouws	Labour: SAMWU	
I Jacobs	Labour: SAMWU	
G Daniels	Labour: SAMWU	
G Cedras	Labour: IMATU	
W van der Horst	Labour: IMATU	

Table 34.: Labour Forum

COMPONENT D: CORPORATE GOVERNANCE

Corporate governance is the set of processes, practices, policies, laws and stakeholders affecting the way an institution is directed, administered or controlled. Corporate governance also includes the relationships among the many stakeholders involved and the goals for which the institution is governed.

2.8 RISK MANAGEMENT

To maintain an overall positive perception of the municipality and confidence in the municipality from the public and other stakeholders, well planned goals and objectives should be coordinated and achieved within the municipality. Section 62(1) of the Local Government: MFMA, 2003 (Act 56 of 2003) stipulates that the Accounting Officer must take all reasonable steps to ensure that the municipality has and maintains an effective, efficient and transparent system of financial and risk management and internal control as well as the effective, efficient and economical use of the resources of the municipality. BWM has instituted such a systematic and formalized process in order to identify, assess, manage and monitor risks which effectively ensures achievement of those planned goals and objectives. Thus, risk management is essentially a good governance measure instituted to ensure the municipality accomplish its vision, mission and strategic plans.

The municipality has an approved Risk Management Policy, Framework and Implementation Plan as approved by Council on 29 November 2012. The policy is reviewed annually by the Risk Committee and submitted to the Municipal Manager for approval.

The risk management function is facilitated internally by the internal audit division to ensure the following functions are performed:

- Assisting management to develop the Risk Management Policy, Strategy and Implementation Plan;
- Coordinating risk management activities;
- Facilitating identification and assessment of risks;
- Recommending risk responses to management; and

Developing and disseminating risk reports.

a) Risk Assessment Process

The risk assessment for the 2014/15 financial year was completed during June 2014 where risks were identified and categorized into the following groups:

- Operational risks
- Strategic risks

The risks identified were classified into high, medium and low risks to determine the inherent risk (impact risk has before taking controls into consideration). The risk rating is determined by a 10 X 10 risk matrix.

b) Top Strategic Risks

As part of the risk assessment, management identified current controls, which mitigates the inherent risks identified. After considering controls, the identified risks will receive a residual risk.

After the residual risks have been determined it will be categorized again according to high, medium and low risks, where management determined which of the residual risk required further actions to mitigate the residual risk to lessen the severity of the risk identified.

The top ten risks of the Municipality for the financial year were as follow:

Risk level	Risk	Directorate	Impact	Likelihood	Risk Rating
High	Non-existent reserves to replace infrastructure/assets should uninsured damages occur	Strategic	9	9	81
High	Risk of financial sustainability for now and in the future Revenue base decreasing relative to increase in population. Lack of funding (Electro Technical, Community, IDP) Lack of resources/funding (Transport, warm bodies, forensic investigators, CAATS, Experts).	Strategic	9	9	81
High	Over-dependency on grant funds to sustain service delivery	Strategic	9	9	81
High	Failure to attract, appoint and retain skilled and competent workforce/critical vacancies not filled. Nepotism/favouritism (especially temporary staff). Ineffective appointment process due to meetings cancelled or moved continuously resulting in long disruptions in the process. Lack of resources to perform work (vacant posts not filled). Vacant posts (Engineers). Senior posts vacant (Engineers). Supply Chain Management unit. Lack of skilled resources resulting in incorrect specifications for procurement of inventory. Lack of human resources to perform all the necessary tasks (Community). Lack of resources - only one official to perform the work (MM). No dedicated official allocated for disaster management. Lack of a risk management officer. Lack of resources in the HR department to perform all functions effectively.	Strategic	9	9	81
High	Non-compliance / existence of approved disaster recovery plan and back-up testing procedures	Corporate	9	9	81

Risk level	Risk	Directorate	Impact	Likelihood	Risk Rating
High	Vandalism/theft and sabotaging/arson. Road signs, Manhole covers, petrol/diesel, material. Cables stolen, resulting in water pumps not working; effects Delivery of electricity and water services.	Strategic	9	9	81
High	Inadequate store and inventory management resulting in stock not delivered at the stores. Store records not updates with good received notes (GRV) and possible theft etc. Murraysburg office - has their own order book but does not communicate the invoice and the order timeously to the Stores Department resulting in non-payment of accounts and suppliers closing the accounts. Stores cannot supply departments with sufficient stock due to lack of communication and planning. Insufficient procedures to identify and monitor obsolete stock. Inappropriate inventory items in stores resulting in disrupted service delivery.	Finance	9	9	81
High	Political interference resulting in loss of income. Credit control. Supply Chain Management. Appointment process. Housing allocation. Disciplinary process. Political interference in the payment process resulting in cheques being made out in contradiction to policy (especially subsistence and travel). Political interference resulting in payments not in line with legislation and policies (SAMWU). Councillor interference in payment process - timing of payment.	Strategic	9	9	81
High	Ageing and overstretched infrastructure resulting in disrupted service delivery (Engineers, Fire). Equipment / infrastructure (Hillside network and older parts of town). Vehicle testing station equipment.	Strategic	9	9	81
High	No municipal accreditation to handle hazardous substances	Community	10	8	80

Table 35.: Strategic Risks

c) Organisational Risk Assessment

The annual risk assessment, compared to the previous risk assessment, reflected the following change in the risk profile:

2013/2014			2014/2015		
Risk Categories	Risks	% of all risk	Risk Categories	Risks	% of all risks
High Rated	19	11	High Rated	22	47
Medium Rated	111	66	Medium Rated	24	51
Low Rated	37	23	Low Rated	1	2
Total	167	100	Total	47	100

Table 36.: Risk Profile

d) Risk Committee

The role of the Risk Committee is to provide timely and useful enterprise risk management report to the AC of the municipality. The report contains the current top risks of the municipality, which includes:

- > The key strategic and financial risks facing the municipality (all extreme and high risk exposures
- The key operational risks per strategic goal (top 5 risks per objective as per risk exposure from high to low)

Further detail of the roles of the Risk Committee is included in the approved Risk Committee Charter.

Our Risk Committee consists of the following members:

Name of Committee Member	Capacity	Meeting dates
LW Hawker	Member	
A Makendlana	Member	
J Booysen	Member	Risk Committee appointed in May 2015.
F Sabbat	Member	All risk related items were tabled at AC
L Smit	Member	meetings. Chairperson will be elected at the first
R van Staden	Member	Risk Committee meeting held in the
R Klink	Member	2015/16 financial year.
Internal Auditor	Member (to be elected)	
Chief Risk Officer	Member (to be elected)	

Table 37.: Members of the Risk Committee

2.9 ANTI-CORRUPTION AND ANTI-FRAUD

Section 83(c) of the MSA refers to the implementation of effective bidding structures to minimize the possibility of fraud and corruption and the MFMA, Section 112(1) (m)(i) identify supply chain measures to be enforced to combat fraud and corruption, favoritism and unfair and irregular practices. Section 115(1) of the MFMA states that the accounting officer must take steps to ensure mechanisms and separation of duties in a supply chain management system to minimize the likelihood of corruption and fraud.

a) Developed Strategies

Name of strategy	Developed Yes/No	Date Adopted
Anti-Corruption Strategy and Implementation Plan	Yes (under review)	29 November 2012

Table 38.: Strategies

2.10 AUDIT COMMITTEE

Section 166(2) of the MFMA states that an Audit Committee (AC) is an independent advisory body which must -

- advise the municipal Council, the political office-bearers, the accounting officer and the management staff of the municipality, on matters relating to –
- internal financial control;
- risk management;

- performance management; and
- effective governance.

The AC have the following main functions as prescribed in section 166 (2) (a-e) of the MFMA, 2003 and the Local Government Municipal and Performance Management Regulation:

- To advise the Council on all matters related to compliance and effective governance.
- To review the annual financial statements to provide Council with an authoritative and credible view of the financial position of the municipality, its efficiency and its overall level of compliance with the MFMA, the annual Division of Revenue Act (DoRA) and other applicable legislation.
- Respond to the Council on any issues raised by the Auditor-General in the audit report.
- To review the quarterly reports submitted to it by the internal audit.
- To evaluate audit reports pertaining to financial, administrative and technical systems.
- > The compilation of reports to Council, at least twice during a financial year.
- To review the performance management system and make recommendations in this regard to Council.
- To identify major risks to which Council is exposed and determine the extent to which risks have been minimised.
- To review the annual report of the municipality.
- Review the plans of the Internal Audit function and in so doing; ensure that the plan addresses the high-risk areas and ensure that adequate resources are available.
- Provide support to the Internal Audit function.
- Ensure that no restrictions or limitations are placed on the Internal Audit section.
- Evaluate the activities of the Internal Audit function in terms of their role as prescribed by legislation.

a) Members of the Audit Committee

Name of representative	Capacity	Meeting dates
A Hooker	Chairperson	28 August 2014
KE McKay	Member	22 September 2014
T Solomon	Member	27 November 2014
LW Hawker	Member	15 January 2015

Table 39.: Members of the Audit Committee

2.11 PERFORMANCE AUDIT COMMITTEE

The regulations require that the Performance Audit Committee (PAC) is comprised of a minimum of three members, the majority of whom are external (neither a Councillor nor an employee) of the municipality. Section 14(2) (b) of the regulations further stipulates that the PAC must include at least one person who has expertise in performance management. It is also a requirement of the Regulations in Section 14(2)(d) that the Council of a municipality designate neither a member of the PAC who is neither a Councillor nor an employee of the municipality as the chairperson of the committee.

In terms of Section 166(4) (a) of the MFMA, an AC must consist of at least three persons with appropriate experience, of who the majority may not be in the employ of the municipality.

Section 166(5) of the MFMA, requires that the members of an AC must be appointed by the Council of the municipality. One of the members, not in the employ of the municipality, must be appointed as the chairperson of the committee. No Councillor may be a member of an AC.

Both the Regulations and the MFMA, indicate that three is the minimum number of members needed to comprise a PAC. While the regulations preclude the appointment of a Councillor as chairperson of the PAC, the MFMA excludes the involvement of a Councillor in the composition of a PAC entirely.

In accordance with the requirements of Section 14(2)(e) of the Regulations, if the chairperson is absent from a specific meeting of the committee, the members present must elect a chairperson from those present to act as chairperson for that meeting.

Further, Section 14(2) (f) of the Regulations provides that, in the event of a vacancy occurring amongst the members of the PAC, the municipality concerned must fill that vacancy for the unexpired portion of the vacating member's term of appointment.

Section 14(3) (a) of the Regulations requires that the PAC of a municipality must meet at least twice during each financial year. However, additional special meetings of the PAC may be called for by any member of the committee, where sufficient justification exists in terms of Section 14(3) (b) of the Regulations.

a) Functions of the Performance Audit Committee

In terms of Section 14(4) (a) of the Regulations the PAC has the responsibility to -

- review the quarterly reports produced and submitted by the internal audit process;
- review the municipality's performance management system and make recommendations in this regard to the Council of the municipality; and
- at least twice during each financial year submit a performance audit report to the Council of the municipality.

b) Members of the Performance Audit Committee

Name of representative	Capacity	Meeting dates
A Hooker	Chairperson	
KE McKay	Member	27 November 2014
T Solomon	Member	15 January 2015
LW Hawker	Member	

Table 40.: Members of the Performance Audit Committee

2.12 INTERNAL AUDITING

Section 165 (2) (a), (b)(iv) of the MFMA requires that the internal audit unit of a municipality prepare a risk based audit plan and an internal audit program for each financial year; advise the accounting officer and report to the AC on the implementation on the internal audit plan and matters relating to:

- internal audit;
- internal controls;
- accounting procedures and practices;
- risk and risk management;
- performance management;
- loss control; and
- compliance with this Act, the annual Division of Revenue Act and any other applicable legislation
- perform other duties as may be assigned to it by the accounting officer.

The Municipality has an in-house internal audit function.

a) Annual Audit Plan

By-Law developed/revised	Date adopted	Public Participation Conducted Prior to adoption of by-Law Yes/No
Draft By-Law On Municipal Land Use Planning	08 June 2015	No

Table 42.: By-Laws Developed and Reviewed

2.14 COMMUNICATION

Local government has a legal obligation and a political responsibility to ensure regular and effective communication with the community. The Constitution of the Republic of South Africa Act 1996 and other statutory enactments all impose an obligation on local government communicators and require high levels of transparency, accountability, openness, participatory democracy and direct communication with the communities to improve the lives of all.

The communities, on the other hand, have a right and a responsibility to participate in local government affairs and decision-making and ample provision is made in the abovementioned legislation for them to exercise their right in this respect. Our democratic government is committed to the principle of **Batho Pele** and this, in simple terms, means that those we elect to represent us (Councillors at the municipal level) and those who are employed to serve us (the municipal officials at municipal level) must always put people first in what they do.

South Africa has adopted a system of developmental local government, which addresses the inequalities, and backlogs of the past while ensuring that everyone has access to basic services, to opportunities and an improved quality of life.

To be successful, communications must focus on the issues that are shown to impact on the residents' perceptions, quality of service, value for money and efficiencies. They should ideally look to close the communication-consultation loop, i.e. tell people how they can have a say and demonstrate how those who have given their views have had a real impact.

Below is a communication checklist of the compliance to the communication requirements:

Communication activities	Yes/No
Communication Strategy	Yes
Communication Policy	Yes
Functional complaint management systems	Yes
Customer satisfaction surveys	No

Table 43.: Communication Activities

Additional communication channels utilised

Channel	Yes/No	Number of People Reached	
SMS system	Yes	120	

Table 44.: Additional Communication Channels

2.15 WEBSITE

Municipalities are required to develop and maintain a functional website that displays relevant information as per the requirements of Section 75 of the MFMA and Section 21A and B of the MSA as amended.

The website should serve as a mechanism to promote accountability and transparency to communities and therefore information posted should be accurate and timeously updated.

The municipal website is a key communication mechanism in terms of service offering, information sharing and public participation. It is a communication tool that should allow easy and convenient access to relevant information. The municipal website should serve as an integral part of the municipality's communication strategy.

The table below gives an indication about the information and documents that are published on our website.

Description of information and/or document	Yes/No and/or Date Published
Municipal contact details (Section 14 of the Promotion of Access to Inf	ormation Act)
Full Council details	Yes
Contact details of the Municipal Manager	Yes
Contact details of the CFO	Yes

c) Awards Made by the Accounting Officer

No bids were awarded by the Accounting Officer.

d) Appeals Lodged by Aggrieved Bidders

No appeals have been received for the 2014/15 financial year. Only enquiries on tender outcomes.

2.16.2 DEVIATION FROM NORMAL PROCUREMENT PROCESSES

The following table provides a summary of deviations approved on an annual and monthly basis respectively:

Type of deviation	Number of deviations	Percentage of total deviations number	Value of deviations R	Percentage of total deviations value
Emergency	5	2.18	74 841	1.13
Sole Supplier	68	29.57	2 701 870	40.80
Acquisition of special works of art or historical objects where specifications are difficult to compile	1	0.42	0.42 20 086	
Any other exceptional case where it is impossible or impractical to follow the official procurement process	156	67.83	3 825 721	57.77
Total	230	230 100		100

Table 49.: Summary of Deviations

Clause 36(1)(a)(v)- Deviations- Impractical and or Impossible

Type of deviation	Number of deviations	%	Value of deviations R
Any contract relating to the publication of notices and advertisements by the Municipality	15	15.15	273 033
Any contract with an organ of state, a local authority or a public utility corporation or company	6	6.06	112 629
The appointment of any person to provide professional advice or services, where the value of such appointment is less than R 200 000	26	26.26	858 504
Ad-hoc repairs to plant and equipment where it is not possible to ascertain the nature or extent of the work required in order to call for bids	nent where it is not le to ascertain the or extent of the work		1 122 577
Total	99	100	2 366 743

Table 50.: Clause 36(1)(a)(v)- Deviations- Impractical and or Impossible

2.16.3 LOGISTICS MANAGEMENT

The system of logistics management must ensure:

- the monitoring of spending patterns on types or classes of goods and services incorporating, where practical, the coding of items to ensure that each item has a unique number;
- the setting of inventory levels that includes minimum and maximum levels and lead times wherever goods are placed in stock;
- the placing of manual or electronic orders for all acquisitions other than those from petty cash;
- before payment is approved, certification by the responsible officer that the goods and services are received or rendered on time and is in accordance with the order, the general conditions of contract and specifications where applicable and that the price charged is as quoted in terms of a contract;
- appropriate standards of internal control and warehouse management to ensure that goods placed in stores are secure and only used for the purpose for which they were purchased;
- egular checking to ensure that all assets including official vehicles are properly managed, appropriately maintained and only used for official purposes; and
- monitoring and review of the supply vendor performance to ensure compliance with specifications and contract conditions for particular goods or services.

Each stock item at the municipal stores, are coded and are listed on the financial system. Monthly monitoring of patterns of issues and receipts are performed by the Storekeeper.

Inventory levels are set at the start of each financial year. These levels are set for normal operations. In the event that special projects are being launched by departments, such information is not communicated timely to the Stores section in order for them to gear them to order stock in excess of the normal levels.

Internal controls are in place to ensure that goods and service that are received are certified by the responsible person which is in line with the general conditions of contract.

Regular checking of the condition of stock is performed. Quarterly stock counts are performed at which surpluses, deficits, damaged and redundant stock items are identified and reported to Council.

As at 30 June 2015, the value of stock at the municipal stores amounted to **R 2 924 398** (**R 2 830 630** in 2013/14). For the 2014/15 financial year a total of **R 287** were accounted for as surpluses (**R 4 963** in 2013/14), no deficits (**R 1 113.55** in 2013/14) and no damaged stock items were reported.

The system of disposal management must ensure the following:

- immovable property is sold only at market related prices except when the public interest or the plight of the poor demands otherwise, as community value makes up for the lower market value
- movable assets are sold either by way of written price quotations, a competitive bidding process, auction or at market related prices, whichever is the most advantageous;
- Firearms are not sold or donated to any person or institution within or outside the Republic unless approved by the National Conventional Arms Control Committee;
- Immovable property is let at market related rates except when the public interest or plight of the poor demands otherwise;
- All fees, charges, rates, tariffs, scales of fees or other charges relating to the letting of immovable property are annually reviewed;
- Where assets are traded in for other assets, the highest possible trade-in price is negotiated; and
- In the case of the free disposal of computer equipment, the provincial department of education is first approached to indicate within 30 days whether any of the local schools are interested in the equipment.
- We are complying with section 14 of the MFMA which deals with the disposal of capital assets.
- Assets must be disposed of in terms of Council's Asset Management Policy as well as
- the Immoveable Property Management Policy

CHAPTER 3

This chapter provides an overview of the key service achievements of the municipality that came to fruition during 2014/15 in terms of the deliverables achieved compared to the key performance objectives and indicators in the IDP. It furthermore, includes an overview on achievement in 2014/15 compared to actual performance in 2013/14.

3.1 Overview of Performance within the Organisation

Performance management is a process, which measures the implementation of the organisation's strategy. It is also a management tool to plan, monitor, measure and review performance indicators to ensure efficiency, effectiveness and the impact of service delivery by the municipality.

At local government level performance management is institutionalized through the legislative requirements on the performance management process for Local Government. Performance management provides the mechanism to measure whether targets to meet its strategic goals, set by the organisation and its employees, are met.

The Constitution of South Africa (1996), Section 152, dealing with the objectives of local government paves the way for performance management with the requirements for an "accountable government". The democratic values and principles in terms of Section 195(1) are also linked with the concept of performance management, with reference to the principles of inter alia:

- the promotion of efficient, economic and effective use of resources;
- accountable public administration;
- to be transparent by providing information;
- to be responsive to the needs of the community; and
- to facilitate a culture of public service and accountability amongst staff.

The MSA, 2000 requires municipalities to establish a performance management system. Further, the MSA and the MFMA requires the Integrated Development Plan (IDP) to be aligned to the municipal budget and to be monitored for the performance of the budget against the IDP via the Service Delivery and the Budget Implementation Plan (SDBIP).

In addition, Regulation 7(1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that "A municipality's performance management system entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role players." Performance management is not only relevant to the organisation as a whole, but also to the individuals employed in the organization as well as the external service providers and the Municipal Entities. This framework, *inter alia*, reflects the linkage between the IDP, Budget, SDBIP and individual and service provider performance.

3.1.1 LEGISLATIVE REQUIREMENTS

In terms of Section 46(1)(a) a municipality must prepare for each financial year a performance report reflecting the municipality's and any service provider's performance during the financial year, including comparison with targets of and with performance in the previous financial year. The report must, furthermore, indicate the development and service delivery priorities and the performance targets set by the municipality for the following financial year and measures that were or are to be taken to improve performance.

3.1.2 ORGANISATIONAL PERFORMANCE

Strategic performance indicates how well the municipality is meeting its objectives and which policies and processes are working. All government institutions must report on strategic performance to ensure that service delivery is efficient, effective and economical. Municipalities must develop strategic plans and allocate resources for the implementation. The implementation must be monitored on an ongoing basis and the results must be reported on during the financial year to various role-players to enable them to timeously implement corrective measures where required.

This report highlight the strategic performance in terms of the municipality's Top Layer Service Delivery Budget Implementation Plan (SDBIP), high level performance in terms of the National Key Performance Areas, performance on the National Key Performance Indicators prescribed in terms of section 43 of the MSA, 2000 and an overall summary of performance on a functional level and municipal services

3.1.3 THE PERFORMANCE SYSTEM FOLLOWED FOR 2014/15

a) The IDP and the Budget

The IDP was reviewed for 2014/15 and Council approved the budget for 2014/15 on 30 May 2014 [item 2]. The IDP and performance management processes are integrated. The IDP fulfills the planning stage of performance management. Performance management in turn, fulfills the implementation management, monitoring and evaluation of the IDP.

The Service Delivery and Budget Implementation Plan (SDBIP) was prepared as described in the paragraphs below and the Top Layer SDBIP approved by the Executive Mayor on 20 June 2014

b) The Service Delivery Budget Implementation Plan

The organisational performance is evaluated by means of a municipal scorecard (Top Layer SDBIP) at organisational level and through the service delivery budget implementation plan (SDBIP) at directorate and departmental levels.

The SDBIP is a plan that converts the IDP and budget into measurable criteria on how, where and when the strategies, objectives and normal business process of the municipality is implemented. It also allocates responsibility to directorates to deliver the services in terms of the IDP and budget.

The MFMA Circular No.13 prescribes that:

- The IDP and budget must be aligned.
- The budget must address the strategic priorities.
- > The SDBIP should indicate what the municipality is going to do during next 12 months.
- The SDBIP should form the basis for measuring the performance against goals set during the budget /IDP processes.

3.1.4 Performance Management

Performance management is prescribed by chapter of the MSA, Act 32 of 2000 and the Municipal Planning and Performance Management Regulations, 796 of August 2001. Section 7 (1) of the aforementioned regulation states that "A Municipality's Performance Management System entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organized and managed, including determining the responsibilities of the different role players." This framework, *inter alia*, reflects the linkage between the IDP, Budget, SDBIP and individual and service provider performance. The municipality adopted a performance management framework that was approved by Council in November 2008.

a) Organisational Performance

The organisational performance is monitored and evaluated via the SDBIP and the performance process can be summarised as follows:

- The Top Layer SDBIP was approved by the Mayor on 20 June 2014 and the information was loaded on an electronic web based system.
- The web based system sent automated e-mails to the users of the system as a reminder to all staff responsible for updating their actual performance against key performance indicator targets by the 15th of every month for the previous month's performance.
- Additionally, the performance system administrator reminded all departments on a monthly basis to update their actual performance on the web based system.
- The first quarterly report was submitted to Council on 29 October 2014 [item 2] and the second quarterly report on 27 January 2015. The section 72 report in terms of the MFMA, was submitted to Council on the 22 January 2015. The third quarter report was submitted to Council on the 29 May 2015.

b) Individual Performance Management

i) Municipal Manager and Managers directly accountable to the Municipal Manager

The MSA, 2000 (Act 32 of 2000) prescribes that the municipality must enter into performance based agreements with the all s57-employees and that performance agreements must be reviewed annually. This process and the format are further regulated by Regulation 805 (August 2006). The performance agreements for the 2014/15 financial year were signed as follows:

Performance Agreement	Date
Director: Corporate Services	29 July 2014
Director: Engineering Services	28 July 2014
Director: Financial Services	01 July 2014
Director: Electro Technical Services	29 July 2014
Municipal Manager	29 July 2014

Table 51.: Performance Agreement: Signed Date

The appraisal of the actual performance in terms of the singed agreements takes place twice per annum as regulated. The final evaluation of the 2013/14 financial year (1 January 2014 to 30 June 2014) took place on 20 October 2014. The final evaluation of the 2014/15 financial year (1 January 2015 to 30 June 2015) is scheduled to take place on 22 September 2015.

3.2 Introduction to Strategic and Municipal Performance for 2014/15

3.2.1 STRATEGIC SERVICE DELIVERY BUDGET IMPLEMENTATION PLAN (TOP LAYER)

The purpose of strategic performance reporting is to report specifically on the implementation and achievement of IDP outcomes. This section should provide an overview on the strategic achievement of a municipality in terms of the strategic intent and deliverables achieved as stated in the IDP. The Top Layer (strategic) SDBIP is the municipality's strategic plan and shows the strategic alignment between the different documents. (IDP, Budget and Performance Agreements.

In the paragraphs below the performance achieved is illustrated against the Top Layer SDBIP according to the IDP (strategic) objectives.

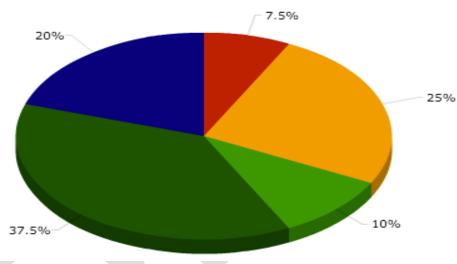

The following table explains the method by which the overall assessment of actual performance against targets set for the key performance indicators (kpi's) of the SDBIP is measured:

Category	Color	Explanation
KPI's Not Yet Measured		KPIs with no targets or actuals in the selected period.
KPI's Not Met		0% >= Actual/Target < 75%
KPI's Almost Met		75% >= Actual/Target < 100%
KPI's Met		Actual/Target = 100%
KPI's Well Met		100% > Actual/Target < 150%
KPI's Extremely Well Met		Actual/Target >= 150%

Figure 2.: SDBIP Measurement Categories

The graph below displays the overall performance in terms of the **Top Layer SDBIP per Strategic objectives for 2014/15:**

				Strategic Objective		
Beaufort West Municipality Muni		To embark on a turnaround strategy to address the administrative and financial challenges facing the municipality	To improve and maintain current basic service delivery and infrastructure development through the provision of basic services and specific infrastructural development projects	To improve the financial viability of the municipality	governance through ongoing communication between the council and citizens through community participation, effective information dissemination and communication and ward based consultation	
KPI Not Met	3 (7.5%)		1 (100%)	2 (6.3%)	-	-
KPI Almost Met	10 (25%)	-	-	9 (28.1%)	-	1 (50%)
KPI Met	4 (10%)	-	-	2 (6.3%)	1 (25%)	1 (50%)
KPI Well Met	15 (37.5%)	-	-	14 (43.8%)	1 (25%)	-
KPI Extremely Well Met	8 (20%)	1 (100%)	-	5 (15.6%)	2 (50%)	-
Total:	40	1	1	32	4	2

3.2.3 MUNICIPAL FUNCTIONS

a) Analysis of Functions

The municipal functional areas are as indicated below:

Municipal Function	Municipal Function Yes / No			
Constitution Schedule 4, Part B functions:				
Air pollution	Yes			

Municipal Function	Municipal Function Yes / No
Building regulations	Yes
Child care facilities	Yes
Electricity and gas reticulation	Yes
Firefighting services	Yes
Local tourism	Yes
Municipal airports	No
Municipal planning	Yes
Municipal health services	No
Municipal public transport	Yes
Municipal public works only in respect of the needs of municipalities in the discharge of their responsibilities to administer functions specifically assigned to them under this Constitution or any other law	No
Pontoons, ferries, jetties, piers and harbours, excluding the regulation of international and national shipping and matters related thereto	No
Stormwater management systems in built-up areas	Yes
Trading regulations	Yes
Water and sanitation services limited to potable water supply systems and domestic waste-water and sewage disposal systems	Yes
Constitution Schedule 5, Part B functions:	
Beaches and amusement facilities	Yes
Billboards and the display of advertisements in public places	Yes
Cemeteries, funeral parlours and crematoria	Yes
Cleansing	Yes
Control of public nuisances	Yes
Control of undertakings that sell liquor to the public	Yes
Facilities for the accommodation, care and burial of animals	Yes
Fencing and fences	Yes
Licensing of dogs	Yes
Licensing and control of undertakings that sell food to the public	No
Local amenities	Yes
Local sport facilities	Yes
Markets	No
Municipal abattoirs	No
Municipal parks and recreation	Yes
Municipal roads	Yes
Noise pollution	Yes
Pounds	No
Public places	Yes
Refuse removal, refuse dumps and solid waste disposal	Yes
Street trading	Yes

Municipal Function	Municipal Function Yes / No	
Street lighting	Yes	
Traffic and parking	Yes	

Table 57.: Functional Areas

3.3 COMPONENT A: BASIC SERVICES

This component includes basic service delivery highlights and challenges, includes details of services provided for water, waste water (sanitation), electricity, waste management, housing services and a summary of free basic services.

3.3.1 WATER PROVISION

a) Introduction to Water and Sanitation Provision

Beaufort West is dependent of three different water sources: Surface Water (Gamka Dam, Springfontein Dam and Walker Dam), Boreholes (36 Boreholes in 6 Aquifers) and the Water Reclamation Plan.

The water sources mentioned above are used to adhere to the demand of the community. The demand of the community is approximately 6.3 mega liters per day. This figure varies depending on the weather conditions. In the summer months the water consumption is much higher than in the winter.

The high summer consumption is balanced by abstracting water from the Gamka Dam, boreholes as well as water from the Reclamation Plant. In the winter months only the boreholes and the Reclamation Plant are used to adhere to the demand from the community.

The water quality of Beaufort West, Nelspoort, Merweville and Murraysburg is of a good standard.

Below table illustrates the bluedrop results:

Water losses are reduced to the minimum from the source to sector meters. There is however a loss of approximately 52% from sector meters to billing. A water meter audit was done and it indicated clearly that the challenge is billing and not only water losses by leakages in the network.

b) Highlights: Water Services

3.3.2 WASTE WATER (SANITATION) PROVISION

a) Introduction to Waste Water (Sanitation) Provision

BWM has four Waste Water Treatment Plants that are situated in Beaufort West, Nelspoort, Merweville and Murraysburg.

The Waste Water Treatment Plant of Beaufort West and Merweville are operating within the design capacity and the finale effluent is of a good quality.

A study has been conducted at the Nelspoort and Murraysburg Waste Water Treatment Plant. The reports indicated that urgent upgrades are necessary at both of the treatment facilities. Both of the projects have been registered on the MIG program to ensure funding for the projects.

Upgrading of the Nelspoort Waste Water Treatment Works will be done in the 2015/2016 financial year.

An investigation was done at Beaufort West Waste Water Treatment Works to determine if the biological filter can be repaired as one of the segments is busy sagging.

The Waste Water Treatment Plant of Beaufort West consists of two processes, an activated sludge process and a biological trickle filter process. The effluent from the activated sludge process is redirected to the Water Reclamation Plant and the effluent from the biological trickle filters are used for irrigation purposes.

The Waste Water Treatment Plant of Nelspoort, Merweville and Murraysburg are evaporation ponds.

3.3.3 ELECTRICITY

a) Introduction to Electricity

Local Government plays a very important role in the provision of electricity. Section 153 of the Constitution places the responsibility on municipalities to ensure the provision of services to communities in a sustainable manner for economic and social support.

The distribution of electricity in Beaufort West started in 1919 when the railway supplied the municipality with electricity. The cost was 4,5 pennies per unit. During 1924, the municipality started building their own power station. On 1 November 1925 the power station was officially opened and ever since, electricity has grown to be a huge industry, supplying energy to businesses and the community. The department is licensed by the National Electricity Regulator (NER) to supply electricity within its approved area of supply. The department is responsible for the distribution and supply of electricity for Beaufort West, Nelspoort, Merweville and surrounding rural areas. Eskom is responsible for the distribution of electricity in Merweville and partially in Murraysburg.

The department takes supply from Eskom at 132 000 volt at Katjieskop substation and distribute 11 000 volt to the supply areas.

Distribution network was installed to the value of R 2 572 300.00 for the 2014/15 projects: Electrification of 245 newly built houses. Floodlights on B and C soccer field and Merweville soccer field were installed, as well as 2 x 30 meter high mast lights in Beaufort West.

Electricity purchases for the 2014/15 financial year amounted to R 44.56 million (Incl. VAT) for 55 526 994 KwH. The electricity is sold to industrial/commercial and domestic customers. Approximately 35.3% of the electricity is sold to industrial/commercial customers, 47.6% to domestic customers, 2.7% for street lighting, 5.04% for own use and 0.14% electricity theft. Energy losses during the financial year amounted to 8.4%.

There are no backlogs in the provision of service connections. Applications for connections are processed as they are received and the necessary connection fees collected. All electricity customers receive a full service, but are differentiated in terms of connection size in relation to connection fees paid.

Service Backlogs

Due to the lack of financial resources over the past number of years, a backlog in repair and maintenance, as well as refurbishment and network expansion has increased. This backlog can only be addressed by sufficient capital investment into the electricity infrastructure.

Infrastructure

Although the municipality has been able to assist all applicants by providing electricity, the low level of investment in the upgrade, refurbishment and expansion of the electricity infrastructure has led to a situation that new developments can no longer be accommodated without major capital investment. It is therefore absolutely essential that the municipality direct more of the surplus generated by the sale of electricity to the capital requirements of the electrical department.

b) Highlights: Electricity

Highlights	Description
Electrification of 245 low cost houses	The distribution network was installed at the cost of R 2 572 299.68 and it was a huge effort to eradicate the housing backlog
Merweville sport field lighting	4 X 20 meter scissor masts with 1000 watt metal halide luminaires were installed which will improve the quality of life for the residents of Merweville as this is the only sport facility that caters for soccer in the town
Rustdene B and C sport field lighting	6 X 20 meter scissor masts with 1000 watt metal halide luminaires were installed and will improve the quality of life for the residents of Rustdene as this is the only sport facility that caters for soccer in the town
High mast lighting: Greater Beaufort West	2 X 30 meter high mast lights were erected in the previously disadvantaged areas mainly for the safety of residents
High mast lighting: Merweville	2 X 30 meter high mast lights were erected in the previously disadvantaged areas mainly for the safety of residents
Energy efficiency demand side management	Load control upgraded; Replacement of 111 old technology street lamps with new technology light emitting diodes (LED) lamps; Replacement of old technology traffic lights with new technology LED traffic lights; Replacement of 120 old technology high mast lights with new technology LED high masts
40 Mega Volt Amp (MVA) transformer	Installation of 40 MVA Transformer at Katjieskop Substation

Table 70.: Electricity Highlights

c) Challenges: Electricity

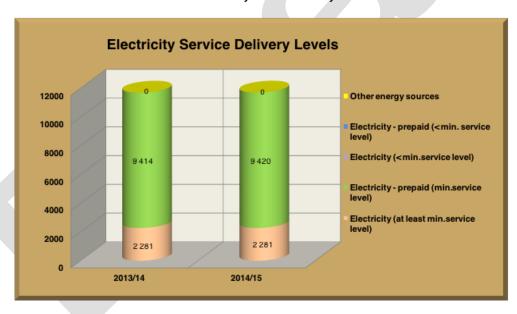

Description	Actions to address
High cost of electricity	Busy implementing energy efficiency products
Service delivery	To improve service delivery, we will have to appoint more qualified personnel and manage the maintenance of services and networks more closely
Funding	More funds must be made available for the maintenance of existing and ageing networks. NERSA benchmark must be followed.
Discipline	The municipality must implement and drive the disciplinary processes and in doing that, discipline will improve without a doubt

3.3.4 WASTE MANAGEMENT (REFUSE COLLECTIONS, WASTE DISPOSAL, STREET CLEANING AND RECYCLING)

Service and Service delivery

Our department provides a weekly door to door waste removal services to households and bi-weekly services to businesses. Domestic and garden waste is removed on daily basis and is placed either in the 85 litre refuse bins and / or refuse bags. Medical waste generated from hospitals, clinics, and general practitioners is collected by a private company. A private company is responsible for spillage removal along the N1 National road transversing the Beaufort West area. Builders rubbles removed by community themselves and municipality removes only when it is dumped. General workers are responsible for litter picking and street sweeping and streets bins along the pavements are emptied on daily basis our trucks.

Landfill Site Disposal Sites

There are four waste management facilities within Beaufort West municipal area, which are; Vaalkoppies, Merweville, Nelspoort and Murraysburg landfill sites and also one recycling facility which needs improvement. All landfill sites are operational but only one is permitted.

Waste Minimisation

The BWM has a waste minimisation strategy since 2002 in partnership with Southern Cape Recycling and is made possible by the contributions of the Department of Environmental Affairs. The initiative targeted the high income residential areas. Blue bags were supplied to all households to collect only cardboard boxes, cans, paper and newspapers. The recyclables are collected once a week and taken to the reclamation depot where it is sorted, baled and transported to Cape Town or Outshoorn.

Waste Awareness and Education

Waste awareness and education is currently done through the distribution of pamphlets on a quarterly basis. The target for these initiatives are schools and communities.

a) Highlights: Waste Management

Highlights	Description
Street cleansing	From the budget of 2014/15 financial year, we bought and installed 20 street swing bins
Waste facilities	Through the Youth Job in Waste Program, our department received a mobile toilet, a site office and a weigh pad which was placed in Vaalkoppies. Two landfill assistants are responsible for the weigh pad to capture waste data. The other landfill sites use the waste calculator form to capture waste quantities and submit a online report (electronically) on a monthly basis to the DEADP. Six general workers from the Youth Job in Waste program are deployed in Vaalkoppies whom have the responsibility of cleaning and the picking up of litter in and around Vaalkoppies.
Waste minimization	The blue bag system has been expanded to middle income residential area (Essopville) within Beaufort West area
Education and Awareness	Through the Youth Job in Waste program, our department received four educators whom currently conduct surveys to all businesses on waste management
Job opportunities	About thirty participants were employed by our department in the 2014/15 financial year to assist in cleaning and the picking up of litter at the Vaalkoppies landfill site and surrounding areas
Trainings and designations	The superintendent attended trainings in the 2014-15 financial year, and was designated as the Air Quality Officer and Waste Management Officer
Integrated Waste Management Plan	Drafted by DEADP in 2014 and approved in 2015

Table 75.: Waste Management Highlights

b) Challenges: Waste Management

Description	Actions to address
Illegal dumping	Budget allocation to buy sufficient illegal dumping sign boards. Conduct education and awareness programs in all residential areas and to businesses within the Beaufort West district.
inegal dumping	Promote the reduction, re-use and recycling of waste concept to residential areas, schools, businesses, health facilities and institutions.
High costs/expenditure on the maintenance and repairs of old and outdated vehicles/trucks	Budget allocation to buy new trucks
Staff shortage	Budget allocation to review the current municipal organogram
Trainings	Budget allocation for current and newly appointed staff to be trained for T8 – T3 levels
Directives issued by DEADP in Vaalkoppies and abattoir waste landfill site	Budget allocated for the 2015/16 financial year. Submitted short term action plan to DEADP to address the problems.
Air Quality Management Plan	Planning on drafting the Air Quality Management Plan in the new financial year, depending on the availability of funds

3.3.6 Housing

a) Introduction to Housing

The municipality wishes to stimulate local economy development through the identification of land that would meet the strengths and anticipated future demands of the economy. A strong and vibrant economy is necessary in leader towns such as Beaufort West and in pursuit of this objective a holistic perspective of development is required.

Against the background of the holistic perspective of integrated residential development approach it was decided to focus strategically mainly on two components of the land use spectrum namely:

- Finance Linked Individual Subsidy Programme (FLISP) also known as Gap Subsidy Housing
- Integrated Residential Development Programme (IRDP) Project linked subsidy housing

Housing Need:

The need for an integrated residential development approach that addresses the whole spectrum of residential needs has been identified and the following main income categories have been considered:

- > IRDP Subsidy housing >R 3 500 per month.
- Gap housing R 3 501 R 15 000 per month

Given the strategic decision to focus first on IRDP and Gap housing, those housing needs can be summarized as follows:

Subsidy	4 841 - units according to recent estimates of the housing demand data base (Includes towns Beaufort West, Murraysburg, Merweville and Nelspoort)
Gap	641 - potential applicants have registered on our data system

Table 81.: Housing Needs

3.3.7 FREE BASIC SERVICES AND INDIGENT SUPPORT

a) Introduction

The free basic services were funded from the "equitable share" grant received from National Treasuary plus an amount from the municipality's own income as budgeted for in the financial year under review.

The municipality has made significant progress and is one of the first municipalities in the country to have implemented free basic services to its indigent households. A debtor is considered indigent if the total monthly household income is equal to two times the amount of state funded social pensions or less (currently R 2 860 per month). All indigent households receives 6kl water and 50KwH electricity free each month. Furthermore, an indigent debtor also receives a subsidy on refuse removal and sewerage, depending on the household income.

All indigents have to renew their applications bi-annually in order to qualify for the benefits.

The table indicates the percentage of indigent households that have access to free basic municipal services. In accordance with the approved indigent policy of the municipality, all households earning less than **R 2 860** per month will receive the free basic services as prescribed by the national policy.

b) Households: Free Basic Services

The tables below indicates the number of households that received free basic services in the 2013/14 and 2014/15 financial years:

				Num	ber of hous	seholds

Table 95.: Financial Performance 2014/15: Cost to Municipality of Free Basic Services Delivered

3.4 COMPONENT B: ROAD TRANSPORT

This component includes: roads; transport; and waste water (stormwater drainage).

3.4.1 ROADS

a) Introduction to Roads

The municipality does pothole repair, while contractors undertake the construction of new paved roads. These projects are done according to EPWP standards to create job opportunities.

All road construction is done by a main contractor and a nominated sub-contractor who is responsible for all the labour. The main contractor has to coach the sub-contractor in all the aspects of safety and construction.

Although 600m gravel roads were upgraded to paved roads in Beaufort West, the general maintenance of tarred and gravel roads were respectively neglected due to budget constraints and unreliable machinery. Barlows refurbished the grader to a standard whereby it can be operational to grade roads.

b) Highlights: Roads

Highlights	Description	
Upgrading of Pieter Street	Upgrading of gravel road to paved road with the associated stormwater of these roads	
Upgrading of Pastorie and Voortrekker Street intersection in Murraysburg	Upgrading of defected intersection where basecourse and tarred surface was replaced with chemicly treated subbase, also 80mm paving blocks placed	

Table 96.: Roads Highlights

c) Challenges: Roads

Description	Actions to address
Reseal of roads	Application for additional funds in the new financial year to ensure that resealing of roads takes place
Maintenance of gravel roads	Replacing unreliable machinery that does not work effectively and buying additional equipment, i.e. a 3 ton sit on roller
Critical positions in the section not filled which lead to important decision making not taking place with regards to the roads function	Ensuring that there will be funds available for the vacant position. Once funds are secured, we will advertise the vacant positions to be filled during the 2015/16 financial year.

Table 97.: Roads Challenges

d) Gravel Roads Infrastructure: Kilometers

Gravel Roads Infrastructure: Kilometres						
Year Total gravel roads New gravel roads Gravel roads Gravel roads upgraded to paved graded/maintained

R'000					
		2014/15			
Capital Projects	Budget	Adjustment Budget	Actual Expenditure	Variance from original budget	Total Project Value
Roads, Pavements and Bridges	5 430	9 428	10 405	4 975	10 405
Stormwater	637	65	56	(581)	56
Total project value represents the estimated cost of the project on approval by Council (including past and future expenditure as appropriate.					

Table 102.: Capital Expenditure 2014/15: Roads and Stormwater

3.4.2 WASTE WATER (STORMWATER DRAINAGE)

a) Highlights: Waste Water (Stormwater Drainage)

Highlights	Description
Gabions - Protea Street	Placing gabions on riverbank to prevent flooding in Erven
Stormwater Channel Protea Street	Replacing existing stormwater pipe systems with an open channel and increased diameter pipe system

Table 103.: Waste Water (Stormwater Drainage) Highlights

b) Challenges: Waste Water (Stormwater Drainage)

Description	Actions to address	
Insufficient Personnel	Budget for the filling of vacant position(s)	
No stormwater master plan	Update and approve the outdated plan	
Existing stormwater system in Hillside is not sufficient	Replacing or upgrading the stormwater system, given sufficient budget is obtained	

Table 104.: Waste Water (Stormwater Drainage) Challenges

c) Stormwater Infrastructure: Kilometers

The table below shows the total kilometers of stormwater maintained and upgraded as well as the kilometers of new stormwater pipes installed:

Stormwater Infrastructure: Kilometres						
Year Total Stormwater New stormwater Stormwater measures Stormwater measures upgraded maintained						
2013/14	Master Plan outdated	2.04	0	17.10		
2014/15	Master Plan outdated	0.88	0	3.50		

Table 105.: Stormwater Infrastructure

d) Cost: Stormwater Infrastructure

The table below indicates the amount of money spend on stormwater maintenance:

	Stormwater Measures					
Financial year	New R'000	Upgraded R'000	Maintained R'000			
2013/14	Part of new road construction	0	Part of roads			
2014/15	Part of new road construction and roads and stormwater maintenance budget	0	Part of roads			

Table 106.: Cost of Construction/Maintenance of Stormwater Systems

An amount of R 249 955 was made available to create jobs through stormwater maintenance. Material was purchased with savings from the operating and maintenance budget.

Personal appointed for these projects are as follows:

Description	Female	Male	Youth
Data Capturer	1	0	1
Supervisors	1	1	1
Labourers	7	6	5

Table 107.: Additional Job Creation

3.5 COMPONENT C: PLANNING AND LOCAL ECONOMIC DEVELOPMENT

3.5.1 PLANNING AND BUILDING CONTROL

Due to the growing beneficiary list for subsidized housing, planning for residential areas to accommodate IRDP and GAP housing, was done by ASLA as the turnkey contractor. The aforementioned planning was done in conjunction with the officials of the municipality.

a) Highlights: Planning and Building Control

Highlights	Description
The implementation of SPLUMA	Land use change which is the local Council's responsibility

Table 109.: Planning Highlights

b) Additional Service Statistics: Planning and Building Control

Type of service	2013/14	2014/15

Total	9	10	8	2	20

Table 111.: Employees: Planning

3.5.2 LOCAL ECONOMIC DEVELOPMENT (INCLUDING TOURISM AND MARKET PLACES)

The LED Strategy was reviewed within the 2009/10 financial year, but not approved. The LED forum was established, but is not functional.

The sectors that are contributing the most to the town's economy are transport and communication (25.3%), wholesale and retail trade (16.8%), general government services (14.4%), manufacturing (10.9%) and agriculture (7.7%). The ability of the local economy to create jobs is limited and is reflected in the current high unemployment figure of 35,5% compared to the provincial unemployment rate of 15,9 percent, this situation is further aggravated by the inability of the current markets to pay living wages i.e. household income is estimated at R 850 pm – R 1500 pm.

The high unemployment coupled with the low skills level of the labour force have been identified as of critical importance at the regional growth and development summit that was held for the district during March 2007. Local government, therefore, also has to play a role in the development of skills of the local labour force. The challenge for the BWM is therefore not only to grow the economy and tax base, but to also develop skills so that the jobs that are created through the growing economy can be taken up by the local unemployed residents.

The BWM has an approved Local Economic Development strategy that was compiled during a comprehensive and transparent formulation process. However this plan has not been reviewed in three years, making it very difficult to measure progress and challenges. A senior official in top management is responsible for economic development and implementation, which is challenging due to limited resources and capacity. The IDP and LED functions were separated in 2012 so that the unit consists of an IDP Coordinator (which is vacant) and LED Official (which is vacant), instead of the IDP Manager managing both functions. Both these functions still reside within the Office of the Municipal Manager.

3.6 COMPONENT D: COMMUNITY AND SOCIAL SERVICES

3.6.1 LIBRARIES

a) Highlights: Libraries

Highlights	Description
Appointment of additional staff at libraries.	Mimosa, Church Street and Merweville received extra staff members
Spelling bee activities	Mimosa had a spelling bee session with the inmates at the locally sitatuated correctional facility
Poetry Event	Mimosa library hosted a poetry event during the past year
SLIMS System	A library information management system that SITA and a user based team had settled on as the replacement for PALS
People counters at libraries.	All libraries in the BWM installed people counters to have a record system in place to track the amount of people that visit the libraries for statistical reasons
Care for the elderly.	Visits to the elderly where library materials were circulated. Also the elderly were treated to manicure treatments of their hands
Library Week	The program for the week focused on the disabled and the program was scheduled for children with disabilities
Visitation by the Minister of Sport and Culture at Church Street	The minister visited all the cultural institutions of Beaufort West

Highlights	Description
Library	
Information sessions and career exhibitions	The Beufort West librarian staff assisted scholars and college students in terms of library orientation
Mandela Day	Some of the libraries provided shoes for the those scholars in need at some of the primary schools in the area. Other official, in conjuction with other groups in the community, spent the day to improve the lives of people in the town at different venues.
Upgrade of Wheely Wagon	The municipal officials from the libraries upgraded the Wheely Wagon in Kwa Mandlekosi
16 Days of Activism- No violence against children and women	Exhibitions held and a strategic session held with the local police station for an information session
Maintenaince of library buildings	Painting of the interior of Mimosa library in Murruysburg

Table 112.: Libraries Highlights

b) Challenges: Libraries

Challenge	Description
Library Manager	Vacany of Library Manager position
Merweville's library is too small to fulfill in the community's information needs	Currently all departments of our municipality is under one roof
Lack of continous training for professionalism in libraries	There is a need for training in the various libraries
Library vehicle	There is a need for a library vehicle to do extension work, as well as other library related projects and administrative duties
Lack of projects held with schools	Projects cannot take place during contact time and/or during school hours due to school homework and responsibilities

Table 113.: Libraries Challenges

c) Service Statistics for Libraries

Type of service	2013/14	2014/15
Library members	12 079	10 662

3.6.2 **CEMETERIES**

There are enough burial ground in all the towns under the jurisdiction of Beaufort West for the near future. However, new cemeteries will have to be developed in the 2015/16 financial year.

a) Challenges: Cemeteries

Description	Actions to address
Vandalism of perimeter fencing as well as the tombstones	
Animals entering the cemeteries and damaging the graves and flowers	Fixing of the perimeter fence and addressing the community

Table 117.: Cemeteries Challenges

3.7 COMPONENT E: SECURITY AND SAFETY

This component includes: traffic; law enforcement; fire and disaster management

3.7.1 TRAFFIC SERVICES AND LAW ENFORCEMENT

a) Highlights: Traffic Services and Law Enforcement

Highlights	Description
Collection of fines	The amount of fines issued and the collection of fines has dramatically increased over the past financial year

Table 118.: Traffic Services Highlights

b) Challenges: Traffic Services and Law Enforcement

Challenges	Actions to overcome
Exposure to corruption	Appointment of additional supervisors
Lack of discipline	Expedite disciplinary measures
Lack of trust amongst staff	Workshops on change management and team building
Poor supervision	Span of control to be investigated
Appointment of staff with no work ethic	Improve vetting of applicants beforehand

Table 119.: Traffic Services Challenges

Table 123.: Employees: Fire Services and Disaster Management

3.8 COMPONENT H: SPORT AND RECREATION

This component includes: community parks; sports fields; sports halls; stadiums; swimming pools; and camp sites.

3.8.1 SPORT AND RECREATION

The community loves their sport, but the main challenge is to raise enough funds to develop the different sport fields as only 15% of the Municipal Infrastructure Grant funds are available for this purpose.

The Municipal Infrastructure Grant (MIG) allocation for 2014/2015 was earmarked for the upgrading of Kwamandlenkosi sports ground.

All sport and recreation areas are mowed and irrigated on a regular basis.

a) Challenges: Sport and Recreation

Description	Actions to address
Vandalism at sport grounds	Address the community and possibly appoint security guards

Table 124.: Sport and Recreation Challenges

b) Service Statistics for Sport and Recreation

Type of service	2013/2014	2014/2015

3.9.3 HUMAN RESOURCE SERVICES

a) Highlights: Human Resources

Highlights	Description
19 Staff Appointment meetings were held since 1 July 2014 until 30 June 2015	13 employees appointed in higher T-grade posts.19 first time appointments.6 contract appointments made - financial interns and personal assistants.
Appointment of Director: Corporate Services and Director: Financial Services	Successful appointment of both directors on 30 June 2015 to start service September 2015

Table 137.: Human Resource Highlights

b) Challenges: Human Resources

Description	Actions to address
Policies to be reviewed and address draft policies	Director: Corporate Services and HR Manager to arrange workshops to discuss HR Policies document received from

Description	Actions to address
	SALGA.
Advertising of vacancies on receipt of requisitions are still a challenge though a copy of a draft advertisement is attached to the notification to the director to be amended or accepted of an employee exiting the service of the municipality.	Vacancies can only be advertised when the director, municipal manager and both unions signed the staff requisition. Chairs of unions not always available to sign within a specific time period.
Have 4 Health and Safety Committee Meetings per annum. Since 2013 most of the departmental health and safety committees became dis-functional due to trained employees exiting the service of the municipality and remaining employees not really interested.	ISHS (Pty) Ltd. was re-appointed to assist with health and safety issues. The process of re-appointment and training of new safety reps is currently on track since the appointment of the Director: Corporate Services from September 2014.
It is still a challenge to have Regular LLF meetings or at least one every two months	HR notify members in advance by means of memoranda and e- mail notices to submit items for discussion prior to scheduled meetings. Problem arises when meetings are postponed until further notice.
Injury on Duty (IOD). HR experienced that it is mostly temporary employees who reported IOD's. Bruises and cuts to fingers/hands, back injuries, bee stings and thorns, inhaling of gasses.	Employees must be issued with the correct protective clothing/gear to do certain jobs to avoid IOD's and claim compensation after being paid by the municipality when not reappointed. IOD's must be accompanied by an incident report which stated that the health and safety rep/committee investigate the incident.
Leave Administration	The correct capturing of all leave forms is very crucial. Council must provide funds in the budget to appoint a dedicated clerk to do leave administration.
Updating/induction of employees regarding joining medical aid funds, pension/retirement fund benefits, absence of leave and other related issues	Regular meetings with employees in all the sections of the municipality including Merweville, Murraysburg and Nelspoort

3.9.4 INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) SERVICES

a) Introduction to Information and Communication Technology (ICT) Services

The ICT services of the municipality is outsourced to an external servicer provider.

b) Highlights: ICT Services

Highlights	Description
	The Council approved the following ICT related policies that was developed according to ICT Municipal Governance Framework adopted by the National Department of Cooperative governance:
	Municipal Corporate Governance of Information and Communication Technology Policy
	ICT User Access Management Policy
ICT Governance	ICT Security Controls Policy
To F Governance	ICT Operating System Security Controls Policy
	ICT Disaster Recovery Policy
	ICT Service Level Agreement Management Policy (External Service Providers / Vendors)
	ICT Service Level Agreement Management Policy (ICT and Municipality)
	ICT Data Backup and Recovery Policy
Upgrade of Equipment BWM succeeded to fund the purchase of new equipment to replace / upgramajority of its old Desktops and Laptops from XP to Windows 8	
Capacity	Due to the increased workload on ICT Governance together with the normal day to day technical support the Municipality succeeded to obtain additional capacity and support from its current service provider without incurring additional expenditure

Table 140.: ICT Service Highlights

c) Challenges: ICT Services

Description	Description
Compatibility	Compatibility issues between the SEBATA Financial Management System and Windows 8 operating system were experienced due to the fact that the developers of the Financial Management System did not amend their software to be fully compatible with Windows 8
Decommissioning of XP operating systems	The majority of BWM's PC's were still equipped with XP operating systems. Due to Microsoft's announcement that they will no longer support XP operating system the Municipality had to upgrade all the PC's equipped with XP to Windows 8. This caused a financial challenge as well as operational challenges to ensure a smooth transition with minimal disruption to the end-users.

Table 141.: ICT Service Challenges

3.9.5 PROCUREMENT SERVICES

a) Highlights: Procurement Services

Highlights	Description	
A comprehensive compliance assessment was done by Western Cape Provincial Treasury to assist and improve our audit outcomes	Many of the recommendations were included in the quarterly reports to Council and others have already been implemented	
Western Cape Supplier Database	Beaufort West, together with the other municipalities in the district have subscribed to the Western Cape Supplier Database with the goal of moving towards an integrated, centralized supplier database that is managed by Provincial Treasury. The envisaged date for implementation is 01 September 2015.	
Implementation of an integrated online procurement system to create more efficiency in the system	We received R 300 000 from Provincial Treasury for the implementation of this project and we are currently in process of implementing the system	

Table 143.: Procurement Services Highlights

b) Challenges: Procurement Services

Description	Actions to address	
Capacity constraints limit the effective and efficient performance and management of the function	Management is in the process of reviewing the Municipality's organisational structure and motivations will be tabled for consideration as part of that process	
The current decentralised nature of the supply chain management unit creates challenges and results in a lack of controls	The goal is to centralise the procurement function within the Municipality	

Table 144.: Procurement Services Challenges

3.9.6 MUNICIPAL BUILDINGS

a) Introduction to Municipal Buildings

Maintenance on municipal buildings is done on an adhoc basis due to financial constraints. The only planned renovation that could be completed is at the municipal stores as it was specifically budgeted for.

There was a Saving Water: Indigent Househould team under the EPWP project which was established in accordance with EPWP standards to create job opportunities. This project involved the fixing of leaks at indigent households thus saving water.

b) Highlights: Municipal Buildings

3.9.7 FLEET MANAGEMENT

a) Introduction to Fleet Management

The goal:

Strive to provide a safe, reliable and cost effective fleet to different departments in such a manner that the service to the community can be delivered in a timely manner. The fleet consist out of 80 vehicles, including: cars, light duty vehicles, trucks, tractors, earth moving vehicle, compressors and different small plants such as mobile and ordinary grass cutters, water pumps, jolly jumpers, vibrators and power generators.

Objective:

To achieve the aim of our municipality's fleet management plan, key objectives for fleet services have been set as follow:

- To maintain fleet costs effective and in a timely manner.
- To put internal control methods in place to prevent fraud and fruitless expenditures.
- To implementing policies formulate by Council to delivered a efficient services to the community.
- 4To share values, norms and expectations.
- To provide a safe and reliable fleet by keeping fleet in a roadworthy condition.
- Ensuring vehicles are replaced by implementing replacement policies.
- Building a team effort, trust, co operation and evaluate performance.
- Keep thorough record of statistics of vehicle history, logs, Petrol usage, vehicle issued and availability.
- Set up reports that is transparent and accessible to responsible people.

The functions of the fleet management section are as follow.

- Vehicle maintenance and repairs.
- Driver management.
- Vehicle financing.
- Fuel management.
- Monthly, quarterly and annually reports.
- Licencing and road worthiness of fleet vehicles.

b) Highlights: Fleet Management

Highlights	Description
Availalbity of fleet	80% of the fleet constantly available

Table 152.: Fleet Management: Highlights

c) Challenges: Fleet Management

Description	Actions to address	
Wear and tear	Ageining vehicles	
Purchasing of vehicles	High costs with regards to leasing of vehicles versus the purchase thereof. Limited budget to purchase new vehicles.	
	High Vehicle reimbursement costs.

Table 158.: Service Delivery Priority for 2014/15: To Promote Good Governance through ongoing Communication between the Council and Citizens through Community Participation, Effective Information Dissemination and Communication and Ward Based Consultation

CHAPTER 4

4.1 National Key Performance Indicators - Municipal Transformation And Organisational Development

The following table indicates the municipality's performance in terms of the National Key Performance Indicators required in terms of the Local Government: Municipal Planning and the Performance Management Regulations of 2001 and section 43 of the MSA. These key performance indicators are linked to the National Key Performance Area – Municipal Transformation and Organisational Development.

KPA and Indicators	Municipal Achievement	Municipal Achievement
	2013/14	2014/15
The number of people from employment equity target groups employed in the three highest levels of management in compliance with a municipality's approved employment equity plan.	0	2
The percentage of a municipality's budget actually spent on implementing its workplace skills plan.	0.06	0.06

Table 159.: National KPIs- Municipal Transformation and Organisational Development

4.2 INTRODUCTION TO THE MUNICIPAL WORKFORCE

The BWM currently employs **352** (excluding non-permanent positions) officials, who individually and collectively contribute to the achievement of the Municipality's objectives. The primary objective of Human Resource Management is to render an innovative human resources service that addresses both skills development and an administrative function.

4.2.1 EMPLOYMENT EQUITY

The Employment Equity Act (1998) Chapter 3, Section 15 (1) states that affirmative action measures are measures designed to ensure that suitable qualified people from designated groups have equal employment opportunities and are equitably represented in all occupational categories and levels in the workforce of a designated employer. The national performance indicator also refers to: "Number of people from employment equity target groups employed in the three highest levels of management in compliance with a municipality's approved employment equity plan"

a) Employment Equity Targets / Actual

Grand total	65	182	0	14	33	77	0	13	384

Table 162.: Occupational Categories

4.2.2 VACANCY RATE

The approved organogram for the municipality had 437 posts for the 2014/15 financial year. The actual positions filled are indicated in the tables below by post level and by functional level. 85 Posts were vacant at the end of 2014/15, resulting in a vacancy rate of 19.45%.

Below is a table that indicates the vacancies within the municipality:

Per Post Level

4.2.3 TURNOVER RATE

A high turnover may be costly to a municipality and might negatively affect productivity, service delivery and institutional memory/organizational knowledge. Below is a table that shows the turnover rate within the municipality. The turnover rate shows a decrease from 6.79% in 2013/14 to 5.68% in 2014/15.

The table below indicates the turn-over rate over the last two years:

Financial year	Total no appointments at the end of each Financial Year	New appointments	No Terminations during the year	Turn-over Rate
2013/14	353	51	24	6.79%
2014/15	352	19	20	5.68%

Table 164.: Turnover Rate

4.3 MANAGING THE MUNICIPAL WORKFORCE

Managing the municipal workforce refers to analyzing and coordinating employee behavior.

4.3.1 INJURIES

An occupational injury is a personal injury, disease or death resulting from an occupational accident. Compensation claims for such occupational injuries are calculated according to the seriousness of the injury/disease and can be costly to a municipality. Occupational injury will influence the loss of man hours and therefore financial and productivity performance.

The number of injuries has stayed the same for the 2014/15 financial year.

The table below indicates the total number of injuries within the different directorates:

Directorates	2013/14	2014/15
Municipal Manager	0	1
Corporate Services	0	1
Financial Services	0	1
Community Services	7	5
Engineering Services	9	9
Electro -Technical Services	1	0
Total	17	17

Table 165.: Injuries

4.3.2 SICK LEAVE

The number of day's sick leave taken by employees has service delivery and cost implications. The monitoring of sick leave identifies certain patterns or trends. Once these patterns are identified, corrective action can be taken.

The total number of employees that have taken sick leave during the 2014/15 financial year shows a decrease when comparing it with the 2013/14 financial year.

The table below indicates the total number sick leave days taken within the different directorates:

Department	2013/14	2014/15
Municipal Manager	34	10
Corporate Services	340	340
Financial Services	756	392
Community Services	855	1 136
Engineering Services	1 403	1 345
Electro-Technical Services	16	58
Total	3 394	3 281

Table 166.: Sick Leave

4.3.3 HR POLICIES AND PLANS

Policies and plans provide guidance for fair and consistent staff treatment and a consistent approach to the managing of staff.

The table below shows the HR policies and plans that are approved and still needs to be approved:

Approved policies				
Name of policy	Date approved/ revised			
Employment Policy	2003			
Internal Conditions of Service	2003			
Sexual harassment	2007			
Subsistence and Travelling	2007			
Training and Development	2007

4.4 CAPACITATING THE MUNICIPAL WORKFORCE

Section 68(1) of the MSA states that municipality must develop its human resource capacity to a level that enables it to perform its functions and exercise its powers in an economical, effective, efficient and accountable way. For this purpose the human resource capacity of a municipality must comply with the Skills Development Act (SDA), 1998 (Act No. 81 of 1998), and the Skills Development Levies Act, 20 1999 (Act No. 28 of 1999).

4.4.1 SKILLS MATRIX

The table below indicates the number of employees that received training in the year under review:

Management level	Gender	Number of employees identified for training at start of the year (2013/14)	Number of Employees that received training (2014/15)

Table 168.: Skills Matrix

4.4.2 SKILLS DEVELOPMENT - TRAINING PROVIDED

The Skills Development Act (1998) and the MSA, (2000), require employers to supply employees with the necessary training in order to develop its human resource capacity. Section 55(1)(f) states that as head of administration the Municipal Manager is responsible for the management, utilization and training of staff.

Total		12	112	32	51	58	163	35.58

Table 169.: Skills Development

4.4.3 SKILLS DEVELOPMENT - BUDGET ALLOCATION

The table below indicates that no budget was allocated to the workplace skills plan

Year	Total personnel budget	Total Allocated	Total Spend	% Spent
		R'000		
2013/14	67 217	330	140	42.42
2014/15	76 749	279	136	48.89

Table 170.: Budget Allocated and Spent for Skills Development

It is important to note that the BWM has not received any grants from LGSETA with regards to the workplace skills plan for the past two financial years.

4.4.4 MFMA COMPETENCIES

In terms of Section 83 (1) of the MFMA, the accounting officer, senior managers, the chief financial officer, non-financial managers and other financial officials of a municipality must meet the prescribed financial management competency levels that are key to the successful implementation of the MFMA. National Treasury has prescribed such financial management competencies in Government Notice 493 dated 15 June 2007.

To assist the above-mentioned officials to acquire the prescribed financial competencies, National Treasury, with the collaboration of various stakeholders and role players in the local government sphere, developed an outcomes-based NQF Level 6 qualification in municipal finance management. In terms of the Government Notice 493 of 15 June 2007, "(1) No municipality or municipal entity may, with effect 1 January 2013 (exempted until 30 September 2015 in terms of Government Notice 179 of 14 March 2014), employ a person as a financial official if that person does not meet the competency levels prescribed for the relevant position in terms of these Regulations."

The table below provides details of the financial competency development progress as required by the regulation:

Description	Total number of officials employed by municipality (Regulation 14(4)(a) and (c))	Competency assessments completed (Regulation 14(4)(b) and (d))	Total number of officials whose performance agreements comply with Regulation 16 (Regulation 14(4)(f))	Total number of officials that meet prescribed competency levels (Regulation 14(4)(e))
	Fin	ancial Officials		
Accounting Officer	1	1	1	1
Chief Financial Officer	1	1	1	1
Senior Managers	2	2	0	2
Any other financial officials	13	13	0	13
	Supply Chai	n Management Official	s	
Heads of Supply Chain Management Units	1	1	0	1
Supply Chain Management Senior Managers	0	0	0	0
Total	18	18	2	18

Table 171.: MFMA Competencies

4.5 MANAGING THE MUNICIPAL WORKFORCE EXPENDITURE

Section 66 of the MSA states that the accounting officer of a municipality must report to the Council on all expenditure incurred by the municipality on staff salaries, wages, allowances and benefits. This is in line with the requirements of the Public Service Regulations, (2002), as well as National Treasury Budget and Reporting Regulations SA22 and SA23.

4.5.1 Personnel Expenditure

The percentage personnel expenditure is essential in the budgeting process as it reflects on current and future efficiency. The table below indicates the percentage of the municipal budget that was spent on salaries and allowance for the past two financial years and that the municipality is well within the national norm of between 35 to 40%:

Financial year	Total Expenditure salary and allowances	· Intal Unerating Expenditure				
	R'(
2013/14	71 808	254 234	28.25			
2014/15	74 824	220 767	33.89

CHAPTER 5

This chapter provides details regarding the financial performance of the municipality for the 2014/15 financial year.

COMPONENT A: STATEMENTS OF FINANCIAL PERFORMANCE

The Statement of Financial Performance provides an overview of the financial performance of the municipality and focuses on the financial health of the municipality.

5.1 FINANCIAL SUMMARY

The table below indicates the summary of the financial performance for the 2014/15 financial year:

Financial Summary											
R'000											
	2013/14		2014/15		2014/15	%Variance					
Description	Actual	Original Budget	Adjusted Budget	Actual	Original Budget	Adjustments Budget

Community and social services	7 698	9 231	8 978	8 105	(12.21)	(9.73)
Sport and recreation	7 679	6 827	6 550	7 275	6.56	11.06
Public safety	39 605	14 570	38 056	44 886	208.07	17.95

	2013/14		2014/15		2014/1	5 Variance
Description	Actual (Audited Outcome)	Original Budget	Adjusted Budget	Actual	Original Budget	Adjustments Budget
		R'(000			%
Housing	29 741	6 413	6 581	4 504	(29.77)	(31.56)
Economic and environmental services	20 833	27 564	26 371	23 604	(14.37)	(10.49)
Planning and development	4 355	4 805	5 328	4 201	(12.57)	(21.15)
Road transport	16 477	22 758	21 043	19 403	(14.74)	(7.80)
Trading Services	93 750	137 449	130 757	122 341	(10.99)	(6.44)
Electricity	57 799	97 543	90 108	74 493	(23.63)	(17.33)
Water	19 798	22 752	20 900	22 701	(0.23)	8.62
Waste water management	5 740	6 341	7 448	8 916	40.61	19.71
Waste management	10 413	10 813	12 302	16 231	50.11	31.94
Other	0	332	332	0	(100.00)	(100.00)
Total Expenditure	254 291	245 644	264 481	258 861	5.38	(2.12)

In this table operational income is offset against operational expenditure leaving a net operational expenditure total for each service. Variances are calculated by dividing the difference between actual and original/adjustments budget by the actual.

5.3 GRANTS

5.3.1 GRANT PERFORMANCE

The municipality had a total amount of **R 76 782 000** for infrastructure and other projects available that was received in the form of grants from the National and Provincial Governments during the 2014/15 financial year. The performance in the spending of these grants is summarised as follows:

	2013/14	2014/15			2014/15	Variance
Description	Actual (Audited Outcome)	Budget	Adjustments Budget	Actual	Origina I Budget	Adjust- ments Budget
		R'	000		•	%

COMPONENT B: CASH FLOW MANAGEMENT AND INVESTMENTS

Cash flow management is critical to the municipality as it enables the organisation to assess whether enough cash is available at any point in time to cover the Council's commitments. Cash flow is rigorously managed and monitored on a regular basis.

5.5 CASH FLOW

Cash Flow Outcomes

CHAPTER 6: AUDITOR GENERAL

CHAPTER 6

COMPONENT A: AUDITOR-GENERAL OPINION 2013/14

6.1 AUDITOR GENERAL REPORT 2013/14

6.1.1 AUDIT REPORT STATUS: UNQUALIFIED WITH EMPHASIS OF MATTER

Main issues raised under emphasis of matter	Corrective steps implemented / to be implemented
The municipality has materially under spent its capital budget to the amount of R 7 841 844.	The procurement plan will be enforced to ensure that all capital projects are spent during the financial year. The heads of department will be tasked to plan for purchases of all capital items in their respective departments within the financial period.
The PAC did not submit, at least twice during the financial year, an audit report to Council on the review of the performance management system as required by the Municipal Planning and Performance Regulation.	The AC will be required to submit at least two reports on the review of the performance management system to Council.
The AC did not advise Council on matters relating to financial control and internal audits, risk management, accounting policies, effective governance, performance management or performance evaluation and matters relating to compliance with laws and regulations as required by the MFMA.	The Accounting Officer will ensure that the AC report to Council on a quarterly basis.
The AC did not respond to the Council on the issues raised in the audit report of the Auditor-General as required by the MFMA.	The Accounting Officer will ensure that the AC include all issues raised in the audit report of the Auditor-General to Council.
The Accounting Officer did not exercise oversight over financial reporting end related internal control processes and in addition did not ensure a proper review of the financial statement and performance report.	The Accounting Officer will ensure in future that oversight will be exercised over financial reporting and related internal control processes, as well as the review of the performance report.
The AC did not advise the Council on matters relating to the adequacy, relating and accuracy of financial reporting and information, as required by the MFMA.	The Accounting Officer will ensure that the AC do advice Council on matters relating to the adequacy and accuracy of financial reporting and information.
The AC did not advise the Council on matters relating to compliance with legislation, as required by the MFMA.	The Accounting Officer will ensure that the AC do advice Council on matters relating to compliance with legislation as required by the MFMA.
The financial statements submitted to audit contained numerous misstatements. This was mainly due to staff members not fully understanding the requirements of the financial reporting framework. The annual performance report was not reviewed for completeness and accuracy by management prior to submission for audit.	In future senior staff members will be tasked to review the annual financial statements for completeness and accuracy prior to submission for audit.

CHAPTER 6: AUDITOR GENERAL

COMPONENT B: AUDITOR-GENERAL OPINION 2014/15

6.2 AUDITOR GENERAL REPORT 2014/15

6.2.1 AUDIT REPORT STATUS: UNQUALIFIED WITH EMPHASIS OF MATTER

Main issues raised under emphasis of matter	Corrective steps implemented / to be implemented
Disclosure of error in the annual report: Revision of the previously issued financial statements.	The municipality erroneously published the incorrect version of the 2013/14 annual financial statements as part of the annual
The financial statements indicates that the previously issued financial statements for the year ended 30 June 2014, on which I issued an auditor's report dated 28 November 2014, were incorrect and have been reissued.	report of 2013/14. The document was corrected and this note is merely disclosing the fact and impact thereof on the comparative numbers.
The corresponding figures for 30 June 2014 have been restated as a result of errors discovered during 2014-15 in the financial statements of Beaufort West Municipality at, and for the year ended, 30 June 2014.	Ensure that the disclosure of corresponding figures are accurate in the financial statements.
The municipality suffered material water losses of 50.32% or 1 391 276 kiloliters during the year under review.	Management must implement a system to minimize material water losses.
Debt impairment to the amount of R40 million were provided for by the municipality as a result of the impairment of irrecoverable trade receivables.	Management will implement a system to take into account the appropriate factors when determining the provision for debt impairment amount and enforced to improve the collection of traffic fines.
The municipality has materially underspent its capital budget to the amount of R19 million.	The procurement plan will be enforced to ensure that all capital projects are spent during the financial year. The heads of department will be tasked to plan for purchases of all capital items in their respective departments within the financial period.
Material losses to the amount of R3 million were incurred as a result of impairment of capitalized restoration costs.	Management will implement a system to minimize impairment of capitalized restoration costs.

APPROVAL OF FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements year ended 30 June 2015, which are set out on pages 1 to 134 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality. The annual financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Mr. J. Booysen Date

Municipal Manager

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

1. ACCOUNTING PRINCIPLES AND POLICIES APPLIED IN THE FINANCIAL STATEMENTS

1.1. BASIS OF PREPARATION

The financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

The financial statements have been prepared in accordance with the Municipal Finance Management Act (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act no 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework , have been developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 (Revised – March 2012) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

Assets, liabilities, revenue and expenses have not been offset except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated otherwise. The details of any changes in accounting policies are explained in the relevant notes to the financial statements.

In terms of Directive 7: "The Application of Deemed Cost on the Adoption of Standards of GRAP" issued by the Accounting Standards Board, the Municipality applied deemed cost to Investment Property, Property, Plant and Equipment and Intangible Assets where the acquisition cost of an asset could not be determined.

1.2. PRESENTATION CURRENCY

Amounts reflected in the financial statements are in South African Rand and at actual values. Financial values are rounded to the nearest one Rand.

1.3. GOING CONCERN ASSUMPTION

These financial statements have been prepared on a going concern basis.

1.4. COMPARATIVE INFORMATION

When the presentation or classification of items in the financial statements is amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed. Where material accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.5. AMENDED DISCLOSURE POLICY

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the financial statements. The principal amendments to matters disclosed in the current financial statements include errors.

1.6. MATERIALITY

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. Materiality is determined as 1% of total operating expenditure. This materiality is from management's perspective and does not correlate with the auditor's materiality.

1.7. PRESENTATION OF BUDGET INFORMATION

The presentation of budget information is prepared in accordance with GRAP 24 and guidelines issued by National Treasury. The comparison of budget and actual amounts are disclosed as a separate additional financial statement, namely Statement of Comparison of Budget and Actual Amounts.

Budget information is presented on the accrual basis and is based on the same period as the actual amounts, i.e. 1 July 2014 to 30 June 2015. The budget information is therefore on a comparable basis to the actual amounts.

The comparable information includes the following:

- the approved and final budget amounts;
- actual amounts and final budget amounts;

Explanations for differences between the approved and final budget are included in the Notes to the Financial Statements.

Explanations for material differences between the final budget amounts and actual amounts are included the Notes to the Financial Statements.

The disclosure of comparative information in respect of the previous period is not required in terms of GRAP 24.

1.8. STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the Municipality:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Standard	Description	Effective Date
Directive 11	Changes in Measurement Bases following Initial Adoption of Standards of GRAP	1 April 2015
	This Directive can be applied when a Municipality elects to change the measurement bases selected for certain assets on the initial adoption of Standards of GRAP.	
	No significant impact is expected as the Municipality has no intention of changing its measurement bases.	
GRAP 18	Segment Reporting	1 April 2015
(Original – Feb 2011)	The objective of this Standard is to establish principles for reporting financial information by segments.	
	No significant impact is expected as information to a large extent is already included in the appendices to the financial statements which do not form part of the audited financial statements.	
GRAP 20	Related Party Disclosure	Unknown
(Original – June 2011)	The objective of this Standard is to ensure that a Municipality's financial statements contains the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.	
	The Municipality resolved to adopt the disclosure requirements as per GRAP 20. The information is therefore included in the financial statements.	
GRAP 32	Service Concession Arrangements: Grantor	Unknown
(Original – Aug 2013)	The objective of this Standard is to prescribe the accounting for service concession arrangements by the grantor and a public sector entity.	
	No significant impact is expected as the Municipality's current treatment is already in line with the Standards treatment.	
GRAP 105 (Original – Nov 2010)	Transfer of Functions Between Entities Under Common Control The objective of this Standard is to establish accounting principles for the acquirer and transferor in a transfer of functions between entities under	1 April 2015
	common control. No significant impact expected as no such transactions or events are expected in the foreseeable future.	

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

GRAP 106	Transfer of Functions Between Entities Not Under Common Control	1 April 2015
(Original – Nov 2010)	The objective of this Standard is to establish accounting principles for the acquirer in a transfer of functions between entities not under common control.	
	No significant impact expected as no such transactions or events are expected in the foreseeable future.	
GRAP 107	Mergers	1 April 2015
(Original – Nov 2010)	The objective of this Standard is to establish accounting principles for the combined entity and combining entities in a merger.	·
	No significant impact expected as no such transactions or events are expected in the foreseeable future.	
GRAP 108	Statutory Receivables	Unknown
(Original – Sept 2013)	The objective of this Standard is to prescribe accounting requirements for the recognition, measurement, presentation and disclosure of statutory receivables.	
	The Municipality has revolved to adopt the principles as set out in GRAP 108 to formulate its own accounting policy.	
IGRAP 11	Consolidation - Special Purpose Entities (SPE)	1 April 2015
	The objective of this Interpretation of the Standard is to prescribe under what circumstances an entity should consolidate a SPE.	
	No significant impact is expected as the Municipality does not have any SPE's at this stage.	
IGRAP 12	Jointly Controlled Entities non-monetary contributions	1 April 2015
	The objective of this Interpretation of the Standard is to prescribe the treatment of profit/loss when an asset is sold or contributed by the venturer to a Jointly Controlled Entity (JCE).	
	No significant impact is expected as the Municipality does not have any JCE's at this stage.	
IGRAP17	Service Concession Arrangements Where a Grantor Controls a Significant Residual Interest in an Asset	Unknown
	This Interpretation of the Standards provides guidance to the grantor where it has entered into a	

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

service concession arrangement, but only controls a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease.	
No such transactions or events are expected in the foreseeable future.	

These standards, amendments and interpretations will not have a significant impact on the Municipality once implemented.

1.9. RESERVES

1.9.1 Capital Replacement Reserve (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment from internal sources, amounts are transferred from the accumulated surplus/ to the CRR. The cash in the CRR can only be utilized to finance items of property, plant and equipment. The CRR is reduced and the accumulated surplus is credited by a corresponding amount when the amounts in the CRR are utilized.

1.9.2 Housing Development Fund

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from National and Provincial Government, used to finance housing selling schemes undertaken by the Municipality, were extinguished on 1 April 1998 and transferred to the Housing Development Fund. Housing selling schemes, both completed and in progress, as at 1 April 1998, were also transferred to the Housing Development Fund. In terms of the Housing Act, all proceeds from housing developments, which include rental income and sale of houses, must be paid into the Housing Development Fund. Monies standing to the credit of the Housing Development Fund can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

1.9.3 Self Insurance Reserve

A Self Insurance Reserve has been established and, subject to external insurance where deemed necessary, covers claims that may occur. Premiums are charged to the respective services taking into account claims history and replacement value of the insured assets.

- Contributions to the fund by Business Units are transferred via the Statement of Changes in Net Assets to the reserve in line with amounts budgeted for in the operating budget. The contributions to the reserve are charged to the Business Units based on the previous year's insured value of the assets under their control.
- The Council determines annually to contribute to the Self Insurance Reserve.
- The total amount of insurance premiums paid to external insurers are regarded as expenses and must be shown as such in the Statement of Financial Performance. These premiums do not affect the Self Insurance Reserve.
- Claims received from external insurers are recognised as revenue in the Statement of Financial Performance.
- Claims received to meet repairs of damages on assets are reflected as income in the Statement of Financial Performance.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

- Repair and replacement costs not fully covered by external insurance are financed from the insurance reserve. The repair and replacement cost is regarded as an expense and is reflected in the Statement of Financial Performance. An amount equal to the expense is transferred from the Insurance Reserve to the Accumulated Surplus via the Statement of Changes in Net Assets.
- Amounts paid on behalf of employees in respect of medical costs for injuries sustained whilst on duty are regarded as expenses and are recorded in the Statement of Financial Performance when incurred. An amount equal to these expenses is transferred from the Insurance Reserve to the Accumulated Surplus account via the Statement of Changes in Net Assets.

1.10. LEASES

1.10.1 Municipality as Lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the Municipality. Property, plant and equipment or intangible assets (excluding licensing agreements for such items as motion picture films, video recordings, plays, manuscripts, patents and copyrights) subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the Municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant and equipment, investment property or intangibles assets. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to de-recognition of financial instruments are applied to lease payables.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined expenses and actual payments made will give rise to a liability. The Municipality recognises the aggregate benefit of incentives as a reduction of rental expense over the lease term, on a straight-line basis unless another systematic basis is representative of the time pattern of the lessee's benefit from the use of the leased asset.

1.10.2 Municipality as Lessor

Under a finance lease, the Municipality recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the Municipality, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to de-recognition and impairment of financial instruments are applied to lease receivables.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease revenue is recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined revenue and actual payments received will give rise to an asset. The Municipality recognises the aggregate cost of incentives as a reduction of rental revenue over the lease term, on a straight-line basis unless another systematic basis is representative of the time pattern over which the benefit of the leased asset is diminished.

1.11. UNSPENT CONDITIONAL GOVERNMENT GRANTS AND RECEIPTS

Conditional government grants are subject to specific conditions. If these specific conditions are not met, the monies received are repayable.

Unspent conditional grants are financial liabilities that are separately reflected on the Statement of Financial Position. They represent unspent government grants, subsidies and contributions from government organs.

This liability always has to be cash-backed. The following provisions are set for the creation and utilisation of this creditor:

- Unspent conditional grants are recognised as a liability when the grant is received.
- When grant conditions are met, an amount equal to the conditions met, are transferred to revenue in the Statement of Financial Performance.
- The cash which backs up the creditor is invested as an individual investment or part
 of the general investments of the Municipality until it is utilised.
- Interest earned on the investment is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor. If it is the Municipality's interest, it is recognised as interest earned in the Statement of Financial Performance.

1.12. UNPAID CONDITIONAL GOVERNMENT GRANTS AND RECEIPTS

Unpaid conditional grants are assets in terms of the Framework that are separately reflected on the Statement of Financial Position. The asset is recognised when the Municipality has an enforceable right to receive the grant or if it is virtually certain that it will be received based on that grant conditions have been met. They represent unpaid government grants, subsidies and contributions from the public.

1.13. UNSPENT PUBLIC CONTRIBUTIONS

Public contributions are subject to specific conditions. If these specific conditions are not met, the monies received are repayable.

Unspent public contributions are financial liabilities that are separately reflected on the Statement of Financial Position. They represent unspent contributions from the public.

This liability always has to be cash-backed. The following provisions are set for the creation and utilisation of this creditor:

- Unspent public contributions are recognised as a liability when the grant is received.
- When grant conditions are met, an amount equal to the conditions met, are transferred to revenue in the Statement of Financial Performance.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

- The cash which backs up the creditor is invested as an individual investment or part of the general investments of the Municipality until it is utilised.
- Interest earned on the investment is treated in accordance with the public contribution conditions. If it is payable to the funder it is recorded as part of the creditor. If it is the Municipality's interest, it is recognised as interest earned in the Statement of Financial Performance.

1.14. PROVISIONS

Provisions are recognised when the Municipality has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resource embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where an inflow of economic benefits or service potential is probable.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The Municipality has a detailed formal plan for the restructuring identifying at least:
 - the business or part of a business concerned;
 - the principal locations affected;
 - the location, function and approximate number of employees who will be compensated for terminating their services;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented.
- (b) The Municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the reporting date.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is de-recognised.

1.15. EMPLOYEE BENEFITS

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Defined contribution plans are post-employment benefit plans under which the Municipality pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

Defined benefit plans are post-employment benefit plans other than defined contribution plans.

1.15.1 Post Retirement Medical Obligations

The Municipality provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds. Council pays 70% as contribution and the remaining 30% is paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined in accordance with GRAP 25 – "Employee Benefits" (using a discount rate applicable to high quality government bonds). The plan is unfunded.

These contributions are recognised in the Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability was calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the present value of the defined benefit obligation at the reporting date, minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly, plus any liability that may arise as a result of a minimum funding requirements. Payments made by the Municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

1.15.2 Long Service Awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the Municipality. The Municipality's obligation under these plans is valued by independent qualified actuaries annually and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

1.15.3 Provision for Staff Leave

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at year-end and also on the basic salary of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term.

Accumulated leave is vesting.

1.15.4 Staff Bonuses Accrued

Liabilities for staff bonuses are recognised as they accrues to employees. The liability at year end is based on bonus accrued at year-end for each employee.

1.15.5 Provision for Performance Bonuses

A provision, in respect of the liability relating to the anticipated costs of performance bonuses payable to Section 57 employees, is recognised as it accrue to Section 57 employees. Municipal entities' performance bonus provisions are based on the employment contract stipulations as well as previous performance bonus payment trends.

1.15.6 Pension and retirement fund obligations

The Municipality provides retirement benefits for its employees and councillors. Defined contribution plans are post-employment benefit plans under which the Municipality pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year they become payable. The defined benefit funds, which are administered on a provincial basis, are actuarially valued triannually on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities. The contributions and lump sum payments are recognised in the Statement of Financial Performance in the year they become payable. Sufficient information is not available to use defined benefit accounting for a multi-employer plan. As a result, defined benefit plans have been accounted for as if they were defined contribution plans.

1.16. PROPERTY, PLANT AND EQUIPMENT

1.16.1 Initial Recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost or fair value of the item can be measured reliably. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the Municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the assets acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the Municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

1.16.2 Subsequent Measurement - Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the Municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits or service potential associated with the asset.

1.16.3 Depreciation and Impairment

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis. The annual depreciation rates are based on the following estimated useful lives:

	10-105 15-105 30 30-105 20-105 20-105 10-105	Bins and containers Specialised plant and 10-105 Equipment 15-105 Other plant and 30 Equipment 30-105 Landfill sites 20-105 Quarries 20-105 Emergency equipment 10-105 Computer equipment

Property, plant and equipment are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.16.4 De-recognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.16.5 Land and buildings and Other Assets – application of deemed cost (Directive 7)

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. For Land and Buildings the fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2010. For Other Assets the depreciation cost method was used to establish the deemed cost as on 1 July 2010.

1.17. INTANGIBLE ASSETS

1.17.1 Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance.

An asset meets the identifiability criterion in the definition of an intangible asset when it:

 is separable, i.e. is capable of being separated or divided from the Municipality and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable asset or liability, regardless of whether the Municipality intends to do so; or

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

 arises from binding arrangements from contracts, regardless of whether those rights are transferable or separable from the Municipality or from other rights and obligations.

The Municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the Municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the Municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the Municipality has the resources to complete the project;
- it is probable that the municipality will receive future economic benefits or service potential; and
- the Municipality can measure reliably the expenditure attributable to the intangible asset during its development.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

1.17.2 Subsequent Measurement – Cost Model

Intangible assets are subsequently carried at cost less accumulated amortisation and any accumulated impairments losses. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

1.17.3 Amortisation and Impairment

Amortisation is charged so as to write off the cost or valuation of intangible assets over its estimated useful lives using the straight line method. Amortisation of an asset begins when it is available for use, i.e. when it is in the condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are amortised separately. The estimated useful lives, residual values and amortisation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis. The annual amortisation rates are based on the following estimated useful lives:

<u>Intangible Assets</u>
Computer Software

Years
3 - 10

1.17.4 De-recognition

Intangible assets are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset. The

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.17.5 Application of deemed cost (Directive 7)

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. For Intangible Assets the depreciated replacement cost method was used to establish the deemed cost as on 1 July 2010.

1.18. INVESTMENT PROPERTY

1.18.1 Initial Recognition

Investment property is recognised as an asset when, and only when:

- it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the Municipality, and
- the cost or fair value of the investment property can be measured reliably.

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations. Property with a currently undetermined use, is also classified as investment property.

At initial recognition, the Municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition. The cost of self-constructed investment property is measured at cost.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Municipality accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

1.18.2 Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of investment property are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

1.18.3 Depreciation and Impairment – Cost Model

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

<u>Investment Property</u> Years Buildings 30

1.18.4 De-recognition

Investment property is derecognised when it is disposed or when there are no further economic benefits expected from the use of the investment property. The gain or loss arising on the disposal or retirement of an item of investment property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.18.5 Application of deemed cost - Directive 7

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. The fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2010

1.19 HERITAGE ASSETS

1.19.1 Initial Recognition

A heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance and is held and preserved indefinitely for the benefit of present and future generations.

A heritage asset is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the asset will flow to the Municipality, and the cost or fair value of the asset can be measured reliably.

A heritage asset that qualifies for recognition as an asset, is measured at its cost. Where a heritage asset is acquired through a non-exchange transaction, its cost is deemed to be its fair value as at the date of acquisition.

1.19.2 Subsequent Measurement - Cost Model

After recognition as an asset, heritage assets are carried at its cost less any accumulated impairment losses.

1.19.3 Depreciation and Impairment

Heritage assets are not depreciated.

Heritage assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.19.4 De-recognition

Heritage assets are derecognised when it is disposed or when there are no further economic benefits expected from the use of the heritage asset. The gain or loss arising on the disposal or retirement of a heritage asset is determined as the difference between the sales proceeds and the carrying value of the heritage asset and is recognised in the Statement of Financial Performance.

1.19.5 Application of deemed cost - Directive 7

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. The fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2010.

1.20. IMPAIRMENT OF NON-FINANCIAL ASSETS

1.20.1 Cash-generating assets

Cash-generating assets are assets held with the primary objective of generating a commercial return.

The Municipality assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Municipality estimates the asset's recoverable amount.

In assessing whether there is any indication that an asset may be impaired, the Municipality considers the following indications:

(a) External sources of information

- During the period, an asset's market value has declined significantly more than would be expected as a result of the passage of time or normal use.
- Significant changes with an adverse effect on the Municipality have taken
 place during the period, or will take place in the near future, in the
 technological, market, economic or legal environment in which the Municipality
 operates or in the market to which an asset is dedicated.
- Market interest rates or other market rates of return on investments have increased during the period, and those increases are likely to affect the discount rate used in calculating an asset's value in use and decrease the asset's recoverable amount materially.

(b) Internal sources of information

- Evidence is available of obsolescence or physical damage of an asset.
- Significant changes with an adverse effect on the Municipality have taken
 place during the period, or are expected to take place in the near future, in the
 extent to which, or manner in which, an asset is used or is expected to be
 used. These changes include the asset becoming idle, plans to discontinue or
 restructure the operation to which an asset belongs, plans to dispose of an
 asset before the previously expected date, and reassessing the useful life of
 an asset as finite rather than indefinite.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

 Evidence is available from internal reporting that indicates that the economic performance of an asset is, or will be, worse than expected.

The re-designation of assets from a cash-generating asset to a non-cash generating asset or from a non-cash-generating asset to a cash-generating asset shall only occur when there is clear evidence that such a re-designation is appropriate. A re-designation, by itself, does not necessarily trigger an impairment test or a reversal of an impairment loss. Instead, the indication for an impairment test or a reversal of an impairment loss arises from, as a minimum, the indications listed above.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. Impairment losses are recognised in the Statement of Financial Performance in those expense categories consistent with the function of the impaired asset.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Municipality estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Financial Performance.

1.20.2 Non-cash-generating assets

Non-cash-generating assets are assets other than cash-generating assets.

The Municipality assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Municipality estimates the asset's recoverable service amount.

In assessing whether there is any indication that an asset may be impaired, the Municipality considers the following indications:

(a) External sources of information

- Cessation, or near cessation, of the demand or need for services provided by the asset.
- Significant long-term changes with an adverse effect on the Municipality have taken place during the period or will take place in the near future, in the technological, legal or government policy environment in which the Municipality operates.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

- (b) Internal sources of information
 - Evidence is available of physical damage of an asset.
 - Significant long-term changes with an adverse effect on the Municipality have taken place during the period, or are expected to take place in the near future, in the extent to which, or manner in which, an asset is used or is expected to be used. These changes include the asset becoming idle, plans to discontinue or restructure the operation to which an asset belongs, or plans to dispose of an asset before the previously expected date.
 - A decision to halt the construction of the asset before it is complete or in a usable condition.
 - Evidence is available from internal reporting that indicates that the service performance of an asset is, or will be, significantly worse than expected.

An asset's recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use. If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss is recognised in the Statement of Financial Performance.

The value in use of a non-cash-generating asset is the present value of the asset's remaining service potential. The present value of the remaining service potential of the asset is determined using any one of the following approaches, depending on the nature of the asset in question:

- Depreciation replacement cost approach the present value of the remaining service potential of an asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.
- Restoration cost approach the cost of restoring the service potential of an asset to
 its pre-impaired level. Under this approach, the present value of the remaining
 service potential of the asset is determined by subtracting the estimated restoration
 cost of the asset from the current cost of replacing the remaining service potential of
 the asset before impairment. The latter cost is usually determined as the depreciated
 reproduction or replacement cost of the asset, whichever is lower.
- Service unit approach the present value of the remaining service potential of the
 asset is determined by reducing the current cost of the remaining service potential of
 the asset before impairment, to conform with the reduced number of service units
 expected from the asset in its impaired state. As in the restoration cost approach, the
 current cost of replacing the remaining service potential of the asset before
 impairment is usually determined as the depreciated reproduction or replacement
 cost of the asset before impairment, whichever is lower.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

An impairment loss is recognised immediately in surplus or deficit, unless the asset is carried at a revalued amount in accordance with another Standard of GRAP. Any impairment loss of a revalued asset shall be treated as a revaluation decrease in accordance with that Standard of GRAP.

The Municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for an asset may no longer exist or may have decreased. If any such indication exists, the Municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for an asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. If this is the case, the carrying amount of the asset is increased to its recoverable service amount. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods. Such a reversal of an impairment loss is recognised in the Statement of Financial Performance.

1.21. INVENTORIES

1.21.1 Initial Recognition

Inventories comprise of current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost of the inventories can be measured reliably. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Water inventory is being measured by multiplying the cost per kilo litre of purified water by the amount of water in storage.

Where inventory is acquired by the Municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

1.21.2 Subsequent Measurement

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

The basis of allocating cost to inventory items is the weighted average method.

Water inventory is measured annually at the reporting date by way of dip readings and the calculated volume in the distribution network.

Cost of land held for sale is assigned by using specific identification of their individual costs.

1.22. FINANCIAL INSTRUMENTS

Financial instruments recognised on the Statement of Financial Position include receivables (both from exchange transactions and non-exchange transactions), cash and cash equivalents, annuity loans and payables (both form exchange and non-exchange transactions) and non-current investments. The future utilization of Unspent Conditional Grants is evaluated in order to determine whether it is treated as financial instruments.

1.22.1 Initial Recognition

Financial instruments are initially recognised when the Municipality becomes a party to the contractual provisions of the instrument at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. If finance charges in respect of financial assets and financial liabilities are significantly different from similar charges usually obtained in an open market transaction, adjusted for the specific risks of the Municipality, such differences are immediately recognised in the period it occurs, and the unamortised portion adjusted over the period of the loan transactions.

1.22.2 Subsequent Measurement

Financial assets are categorised according to their nature as either financial assets at fair value, financial assets at amortised cost or financial assets at cost. Financial liabilities are categorised as either at fair value or financial liabilities carried at amortised cost. The subsequent measurement of financial assets and liabilities depends on this categorisation.

1.22.2.1 Receivables

Receivables are classified as financial assets at amortised cost, and are subsequently measured at amortised cost using the effective interest rate method.

For amounts due from debtors carried at amortised cost, the Municipality first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. Objective evidence of impairment includes significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 90 days overdue). If the Municipality determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the Statement of Financial Performance. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the municipality. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is recognised in the Statement of Financial Performance.

The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate, if material. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

1.22.2.2 Payables and Annuity Loans

Financial liabilities consist of payables and annuity loans. They are categorised as financial liabilities held at amortised cost, and are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

1.22.2.3 Cash and Cash Equivalents

Cash includes cash on hand (including petty cash) and cash with banks. Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, highly liquid deposits and net of bank overdrafts. The Municipality categorises cash and cash equivalents as financial assets carried at amortised cost.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities carried at amortised cost.

1.22.2.4 Non-Current Investments

Investments which include investments in municipal entities and fixed deposits invested in registered commercial banks, are stated at amortised cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Statement of Financial Performance in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is recognised in the Statement of Financial Performance.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

The carrying amounts of such investments are reduced to recognise any decline, other than a temporary decline, in the value of individual investments.

1.22.3 De-recognition of Financial Instruments

1.22.3.1 Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- · the rights to receive cash flows from the asset have expired; or
- the Municipality has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Municipality has transferred substantially all the risks and rewards of the asset, or (b) the Municipality has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Municipality has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the old asset is derecognised and a new asset is recognised to the extent of the Municipality's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Municipality could be required to repay.

When continuing involvement takes the form of a written and/or purchased option (including a cash settled option or similar provision) on the transferred asset, the extent of the Municipality's continuing involvement is the amount of the transferred asset that the Municipality may repurchase, except that in the case of a written put option (including a cash settled option or similar provision) on an asset measured at fair value, the extent of the Municipality's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

1.22.3.2 Financial Liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the Statement of Financial Performance.

1.22.4 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

1.23 STATUTORY RECEIVABLES

Statutory receivables arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset. Statutory receivables can arise from both exchange and non-exchange transactions.

1.23.1 Initial Recognition

Statutory receivables are recognised when the related revenue is recognised or when the receivable meets the definition of an asset.

1.23.2 Measurement

The Municipality initially measures the statutory receivables at their transaction amount. The Municipality measure statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to reflect any:

- (a) interest or other charges that may have accrued on the receivable;
- (b) impairment losses; and
- (c) amounts derecognised.

The Municipality assesses at each reporting date whether there is any indication that a statutory receivable may be impaired. If there is an indication that a statutory receivable may be impaired, the Municipality measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable is reduced, through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance. In estimating the future cash flows, the Municipality considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the Municipality discounts the estimated future cash flows using a rate that reflects the current risk free rate and any risks specific to the statutory receivable for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows. Any previously recognised impairment loss is adjusted by adjusting the allowance account. The amount of any adjustment is recognised in the Statement of Financial Performance.

1.23.3 De-recognition

The Municipality derecognises a statutory receivable when:

- (a) the rights to the cash flows from the receivable are settled, expire or are waived;
- (b) the Municipality transfers to another party substantially all of the risks and rewards of ownership of the receivable; or
- (c) the Municipality, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of the receivable to another party and the other party has the practical ability to sell the receivable in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the Municipality:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

- (i) de-recognise the receivable; and
- (ii) recognise separately any rights and obligations created or retained in the transfer.

1.24. REVENUE

1.24.1 Revenue from Non-Exchange Transactions

Revenue from non-exchange transactions refers to transactions where the Municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred, meet the criteria for recognition as an asset. A corresponding liability is recognised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. At the time of initial recognition the full amount of revenue is recognised. If the Municipality does not enforce its obligation to collect the revenue, this would be considered as a subsequent event. Collection charges are recognised when such amounts are legally enforceable. Rebates and discounts are offset against the related revenue, in terms of iGRAP 1, as there is no intention of collecting this revenue.

Penalty interest on unpaid rates is recognised on a time proportionate basis as an exchange transaction.

Fine Revenue constitutes both spot fines and summonses. Fine revenue is recognised when the spot fine or summons is issued. In cases where fines and summonses are issued by another government institute, revenue will only be recognised when monies are received, as the Municipality does not have any control over fines issued by other government institutes.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the Municipality. Where public contributions have been received, but the Municipality has not met the related conditions, it is recognised as an unspent public contribution (liability).

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the Municipality.

All unclaimed deposits are initially recognised as a liability until 12 months expires, when all unclaimed deposits into the Municipality's bank account will be treated as revenue.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Historical patterns have indicated that minimal unidentified deposits are reclaimed after a period of twelve months. This assessment is performed annually at 30 June. Therefore the substance of these transactions indicate that even though the prescription period for unclaimed monies is legally three years, it is reasonable to recognised all unclaimed monies older than twelve months as revenue. Although unclaimed deposits are recognised as revenue after 12 months, the Municipality still keep record of these unclaimed deposits for three years in the event that a party should submit a claim after 12 months, in which case it will be expensed.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No. 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

Revenue is measured at the fair value of the consideration received or receivable.

When, as a result of a non-exchange transaction, a Municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the present obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability will be recognised as revenue.

1.24.2 Revenue from Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the Municipality directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable.

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- The Municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods.
- The Municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits or service potential associated with the transaction will flow to the Municipality.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

At the time of initial recognition the full amount of revenue is recognised where the Municipality has an enforceable legal obligation to collect, unless the individual collectability is considered to be improbable. If the Municipality does not successfully enforce its obligation to collect the revenue this would be considered a subsequent event.

Service charges relating to electricity and water are based on consumption and a basic charge as per Council resolution. Meters are read on a monthly basis and are recognised as revenue when invoiced. Where the Municipality was unable to take the actual month's reading of certain consumers, a provisional estimate of consumption for that month will be created. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period.

Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale. It is estimated that pre-paid electricity is consumed within 5 to 7 days after date of purchase. The pre-paid electricity sold, but not consumed yet at year-end is disclosed as under Payables from Exchange Transactions in the Statement of Financial Position.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the recorded number of refuse points per property.

Service charges relating to sanitation (sewerage) are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage. In the case of residential property a fixed monthly tariff is levied and in the case of commercial property a tariff is levied based on the number of sewerage connection on the property. Service charges based on a basic charge as per Council resolution.

Interest revenue is recognised using the effective interest rate method.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Dividends are recognised on the date that the Municipality becomes entitled to receive the dividend.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods are passed to the consumer.

Revenue arising out of situations where the Municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

Revenue is measured at the fair value of the consideration received or receivable.

The amount of revenue arising on a transaction is usually determined by agreement between the Municipality and the purchaser or user of the asset or service. It is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts and volume rebates allowed by the Municipality.

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest. The imputed rate of interest is the more clearly determinable of either:

The prevailing rate for a similar instrument of an issuer with a similar credit rating;

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

 A rate of interest that discounts the nominal amount of the instrument to the current cash sales price of the goods or services.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

When goods or services are exchanged or swapped for goods or services which are of a similar nature and value, the exchange is not regarded as a transaction that generates revenue. When goods are sold or services are rendered in exchange for dissimilar goods or services, the exchange is regarded as a transaction that generates revenue. The revenue is measured at the fair value of the goods or services received, adjusted by the amount of any cash or cash equivalents transferred. When the fair value of the goods or services received cannot be measured reliably, the revenue is measured at the fair value of the goods or services given up, adjusted by the amount of any cash or cash equivalents transferred.

1.25. RELATED PARTIES

The Municipality resolved to adopt the disclosure requirements as per GRAP 20 – "Related Party Disclosures".

A related party is a person or an entity:

- with the ability to control or jointly control the other party,
- or exercise significant influence over the other party, or vice versa,
- or an entity that is subject to common control, or joint control.

The following are regarded as related parties of the Municipality:

- (a) A person or a close member of that person's family is related to the Municipality if that person:
 - has control or joint control over the Municipality.
 - has significant influence over the Municipalities. Significant influence is the power to participate in the financial and operating policy decisions of the Municipality.
 - is a member of the management of the Municipality or its controlling entity.
- (b) An entity is related to the Municipality if any of the following conditions apply:
 - the entity is a member of the same economic entity (which means that each controlling entity, controlled entity and fellow controlled entity is related to the others).
 - one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of an economic entity of which the other entity is a member).
 - both entities are joint ventures of the same third party.
 - one entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - the entity is a post-employment benefit plan for the benefit of employees of either the Municipality or an entity related to the Municipality. If the reporting entity is itself such a plan, the sponsoring employers are related to the entity.
 - the entity is controlled or jointly controlled by a person identified in (a).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

 a person identified in (a) has significant influence over that entity or is a member of the management of that entity (or its controlling entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by that person in their dealings with the Municipality. A person is considered to be a close member of the family of another person if they:

- (a) are married or live together in a relationship similar to a marriage; or
- (b) are separated by no more than two degrees of natural or legal consanguinity or affinity.

Management (formerly known as "Key Management") includes all persons having the authority and responsibility for planning, directing and controlling the activities of the Municipality, including:

- (a) all members of the governing body of the Municipality;
- (b) a member of the governing body of an economic entity who has the authority and responsibility for planning, directing and controlling the activities of the Municipality;
- (c) any key advisors of a member, or sub-committees, of the governing body who has the authority and responsibility for planning, directing and controlling the activities of the Municipality; and
- (d) the senior management team of the Municipality, including the chief executive officer or permanent head of the Municipality, unless already included in (a).

Management personnel include:

- (a) All directors or members of the governing body of the Municipality, being the Executive Mayor, Deputy Mayor, Speaker and members of the Mayoral Committee.
- (b) Other persons having the authority and responsibility for planning, directing and controlling the activities of the reporting Municipality being the Municipal Manager, Chief Financial Officer an all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

Remuneration of management includes remuneration derived for services provided to the Municipality in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Municipality for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Municipality.

The Municipality operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms are disclosed.

1.26. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

government, municipality or organ of state and expenditure in a form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.27. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Remuneration of Public Office Bearers Act (Act. No. 20 of 1998), or is in contravention of the Municipality's Supply Chain Management Policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.28. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.29. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Municipality. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to the obligation or the amount of the obligation cannot be measures with sufficient reliability.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where the inflow of economic benefits or service potential is probable.

Management judgement is required when recognising and measuring contingent liabilities.

1.30. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

In the process of applying the Municipality's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

1.30.1 Post-retirement medical obligations and Long service awards

The cost of post-retirement medical obligations and long service awards are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Major assumptions used are disclosed in note 4 of the

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

financial statements. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

1.30.2 Impairment of Receivables

The calculation in respect of the impairment of debtors is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

1.30.3 Property, Plant and Equipment

The useful lives of property, plant and equipment are based on management's estimation. Infrastructure's useful lives are based on technical estimates of the practical useful lives for the different infrastructure types, given engineering technical knowledge of the infrastructure types and service requirements. For other assets and buildings management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

Management referred to the following when making assumptions regarding useful lives and residual values of property, plant and equipment:

- The useful life of movable assets was determined using the age of similar assets available for sale in the active market. Discussions with people within the specific industry were also held to determine useful lives.
- Local Government Industry Guides was used to assist with the deemed cost and useful life of infrastructure assets.
- The Municipality referred to buildings in other municipal areas to determine the useful life of buildings. The Municipality also consulted with engineers to support the useful life of buildings, with specific reference to the structural design of buildings.

For deemed cost applied to other assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

The cost for depreciated replacement cost was determined by using either one of the following:

- cost of items with a similar nature currently in the Municipality's asset register;
- cost of items with a similar nature in other municipalities' asset registers, given that the other municipality has the same geographical setting as the Municipality and that the other municipality's asset register is considered to be accurate;
- cost as supplied by suppliers.

For deemed cost applied to land and buildings as per adoption of Directive 7, management made use of on independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

1.30.4 Intangible Assets

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

The useful lives of intangible assets are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

Reference was made to intangibles used within the Municipality and other municipalities to determine the useful life of the assets.

For deemed cost applied to intangible assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

1.30.5 Investment Property

The useful lives of investment property are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their economic lives, and in what condition they will be at that time.

Management referred to the following when making assumptions regarding useful lives and valuation of investment property:

- The Municipality referred to buildings in other municipal areas to determine the useful life of buildings.
- The Municipality also consulted with professional engineers and qualified valuators to support the useful life of buildings.

For deemed cost applied to Investment Property as per adoption of Directive 7, management made use of on independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

1.30.6 Provisions and Contingent Liabilities

Management judgement is required when recognising and measuring provisions and when measuring contingent liabilities. Provisions are discounted where the time value effect is material.

1.30.7 Revenue Recognition

Accounting Policy 1.24.1 on Revenue from Non-Exchange Transactions and Accounting Policy 1.24.2 on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the Municipality.

In making their judgement, management considered the detailed criteria for the recognition of revenue as set out in GRAP 9: Revenue from Exchange Transactions and GRAP 23: Revenue from Non-Exchange Transactions.). Specifically, whether the Municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services are rendered, whether the service has been performed. Revenue from the issuing of spot fines and summonses has been recognised on the accrual basis using estimates of future collections based on the actual results of prior periods. The management of the Municipality is satisfied that recognition of the revenue in the current year is appropriate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

1.30.8 Provision for Landfill Sites

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value at the reporting date of the expected future cash flows to rehabilitate the landfill site. To the extent that the obligations relate to an asset, it is capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are recognised in the Statement of Financial Performance.

Management referred to the following when making assumptions regarding provisions:

- Professional engineers were utilised to determine the cost of rehabilitation of landfill sites as well as the remaining useful life of each specific landfill site.
- Interest rates (investment rate) linked to prime was used to calculate the effect of time value of money.

1.30.9 Provision for Staff leave

Staff leave is accrued to employees according to collective agreements. Provision is made for the full cost of accrued leave at reporting date. This provision will be realised as employees take leave or when employment is terminated.

1.30.10 Provision for Performance bonuses

The provision for performance bonuses represents the best estimate of the obligation at year end and is based on historic patterns of payment of performance bonuses. Performance bonuses are subject to an evaluation by Council.

1.30.11 Pre-paid electricity estimation

Pre-paid electricity is only recognised as income once the electricity is consumed. The pre-paid electricity balance (included under payables) represents the best estimate of electricity sold at year-end that is still unused. The average pre-paid electricity sold per day during the year under review is used and the estimate is calculated using between 5 and 10 days worth of unused electricity.

1.30.12 Componentisation of Infrastructure assets

All infrastructure assets are unbundled into their significant components in order to depreciate all major components over the expected useful lives. The cost of each component is estimated based on the current market price of each component, depreciated for age and condition and recalculated to cost at the acquisition date if known or to the date of initially adopting the standards of GRAP.

1.31. TAXES - VALUE ADDED TAX

Revenue, expenses and assets are recognised net of the amounts of Value Added Tax. The net amount of Value Added Tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

1.32. CAPITAL COMMITMENTS

Capital commitments disclosed in the financial statements represents the contractual balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

1.33. EVENTS AFTER REPORTING DATE

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

If non-adjusting events after the reporting date are material, the Municipality discloses the nature and an estimate of the financial effect.

1.34. TAXATION

1.34.1 Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities/(assets) for the current and prior periods are measured at the amount expected to be paid to/(recovered from) the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

1.34.2 Deferred tax assets and liabilities

Deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. A deferred tax asset is not recognised when it arises from the initial recognition of an asset or liability in a transaction at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for the carry forward of unused tax losses and unused STC credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused STC credits can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

1.34.3 Tax expenses

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Current and deferred taxes are recognised as income or an expense and included in surplus/deficit for the period.

Current tax and deferred taxes are charged or credited directly to equity if the tax relates to items that are credited or charged, in the same or a different period, directly to equity.

4.1	Post Retirement Benefits			
	The Post Retirement Benefit Plan is a defined benefit plan, of which the members are	made up as follows:		
	In-service (employee) members In-service (employee) non-members Continuation members (e.g. Retirees, widows, orphans)		56 299 25	57 301 26
	Total Members		380	384
	The liability in respect of past service has been estimated to be as follows:			
	In-service (employees) members In-service (employees) non-members Continuation (retirees and widows) members		10 307 427 2 809 035 12 030 875	8 824 030 2 666 600 12 050 547
	,			
	Total Liability		25 147 337	23 541 177

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

4 EMPLOYEE BENEFITS (CONTINUED)

The fund is wholly unfunded.

The liability in respect of periods commencing prior to the comparative year has been			
estimated as follows:	2013 R	2012 R	2011 R
In-service members Continuation members Continuation (retirees and widows) members	7 815 266 1 997 976 10 165 274	8 183 241 2 080 071 11 261 395	7 277 383 10 306 593
Total Liability	19 978 516	21 524 707	17 583 976
Experience adjustments were calculated as follows:		2015 Rm	2014 Rm
Liabilities: (Gain) / loss Assets: Gain / (loss)		(0.104)	1.004
Experience adjustments were calculated as follows in respect of periods commencing prior to the comparative year:			
рного пе сопрагане ува.	2013 Rm	2012 Rm	2011 Rm
Liabilities: (Gain) / loss Assets: Gain / (loss)	(3.061)	1.678	1.785
The municipality makes monthly contributions for health care arrangements to the following schemes:	medical aid		
LA Health; Samwumed; and Keyhealth.			
The Municipality's Accrued Unfunded Liability at 30 June 2015 is estimated at R25 147 337. service Cost for the year ending 30 June 2015 is estimated at R793 716. It is estimated to be the ensuing year.

4 EMPLOYEE BENEFITS (CONTINUED)

2015 2014 R R

4.3 Retirement funds

The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the Pension and Retirement Funds' assets from the fund administrator. The fund administrator confirmed that assets of the Pension and Retirement Funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP OF

As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrator. The fund administrator claims that the pensioner data is confidential and were not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.

Therefore, although the Cape Joint Retirement Fund is a Multi-Employer fund defined as defined benefit plan, it will be accounted for as defined contribution plan. All the required disclosure has been made as defined in GRAP 25.31.

CAPE RETIREMENT FUND

The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2014 revealed that the fund is in a sound financial position with a funding level of 112.2% (30 June 2013 - 100.2%).

CAPE JOINT PENSION FUND

The contribution rate payable is 9% by members and 18% by Council. The latest available actuarial valuation performed for the year ended 30 June 2014 revealed that the fund is in a sound financial position with a funding level of 106.2% (30 June 2013 - 99.7%).

b

SALA PENSION FUND

The contribution rate payable is 8.60% by members and 20.78% by Council. The last actuarial valuation performed for the year ended 30 June 2014 revealed that the fund is in an sound financial position with a funding level of 100% (30 June 2013 - 100%). funding level, provided that the previous statutory valuation reflected at least a 100% funding level.

SAMWU PROVIDENT FUND

The contribution rate payable is 7.50% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2014 revealed that the fund is in an sound financial position with a funding level of 100% (30 June 2013 - 100%). funding level, provided that the previous statutory valuation reflected at least a 100% funding level.

	reflected at least a 100% funding level.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

	Reconciliation of the Total Provision for Debt Impairment	2015 R	2014 R
	Balance at beginning of the year Contributions to provision VAT Contributions to provision Additional interest/corrections transferred to/from provision Doubtful debts written off against provision	59 494 567 40 121 041 302 461 2 958 (3 695 528)	32 917 840 27 217 301 254 999 15 131 (910 704)
	Balance at end of year	96 225 499	59 494 567
	In determining the recoverability of a trade receivable, the Municipality considers any change in the credit quality of the trade receivable from the date the credit was initially granted, up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, management believes no further credit provisions are required in excess of the present allowance for doubtful debts.	t

The municipality does not expect any significant changes to the level of grants.

25.1 Equitable share

25

In terms of the Constitution, this grant is used to subsidise the provision of basic services to indigent community members. All registered indigents receive 6kl free water and 50kwh free electricity per month, which is funded from this grant.

All registered indigents receive a monthly subsidy as per approved budget, funded from this grant. Indigent subsidies is based on the cost of free basic services for the geographical area concerned

See Appendix D & note 10 for a reconciliation of all grants.

26 SERVICE CHARGES

MEMORANDUM TO THE MUNICIPAL MANAGER

SUPPLY CHAIN MANAGEMENT QUARTERLY IMPLEMENTATION REPORT: 4th QUARTER: 01 **APRIL - 30 JUNE 2015**

1. EXECUTIVE SUMMARY

In terms of paragraph 1.9 of Council's Supply Chain Management Policy, the Accounting Officer must submit a report on the implementation of the policy to the Executive Mayor, within 10 days after the end of each quarter.

2. AWARDS OF COMPETETIVE BIDS AND FORMAL QUOTATIONS IN TERMS OF SUB-**DELEGATIONS**

In terms of Section 5(3), an official or bid adjudication committee to which the power to make final awards has been sub-delegated must within five days of the end of each month submit to the accounting officer a written report containing particulars of each final award made by such official or committee during that month.

The Municipal Manager has sub-delegated the power to award Competitive Bids to the Bid Adjudication Committee and Formal Written Price Quotations to the Heads of Departments. The Awards made in terms of these sub-delegations are attached per Annexure A. Attached please find as Addendum 1 the awards that was made by Bid Adjudication Committee and Directors for quarter 01 April to 30 June 2015.

3. MONTHLY REPORT ON DEVIATIONS AND MINOR BREACHES

The Supply Chain Management Policy states in Paragraph 10.3.1: "The accounting officer may dispense with the official procurement processes established by this policy and may procure any required goods or services through any convenient process, which may include direct negotiations, but only -

- (b) if such goods or services are produced or available from a single provider only;
- (d) in any other exceptional case where it is impractical or impossible to follow the official procurement processes"

Schedule of deviations approved by the Accounting Officer is Addendum 2.

There are no minor breaches to be reported.

4. SUPPLY CHAIN MANAGEMENT COMPLIANCE ASSESSMENT

In terms of Section 5 (3) and 5 (4) of the Municipal Finance Management Act 53 of 2003, the Provincial Treasury must amongst others, fulfill its responsibilities in terms of this Act, assist the National Treasury in enforcing compliance with the measures established in terms of Section 216(1) of the Constitution and must monitor compliance with this Act by municipalities in the Province.

Provincial Treasury has visited Beaufort West municipality on 20 May to conduct an SCM compliance to assess whether or not the Municipality adheres to its supply chain management policy and other statutory requirements governing supply chain management when performing supply chain management functions.

The methodology adopted included but was not limited to the following:

- ❖ An evaluation against the supply chain management legislation, policy and procedure;
- Random sampling of source documents;
- Interviews with supply chain management practitioners and other role players and
- Observation, questionnaires, inspection analysis, verification, analytical review of source documents.

Attached find report from Provincial Treasury with recommendation as Addendum 3.

5. AWARDS TO CLOSE FAMILY MEMBERS OF PERSONS IN THE SERVICE OF THE STATE

	5 971 139	3 873 376

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

47 FINANCIAL RISK MANAGEMENT

The activities of the municipality expose it to a variety of financial risks, including market risk (comprising fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk. The municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

(a) Foreign Exchange Currency Risk

The municipality does not engage in foreign currency transactions.

(b) Price risk

The municipality is not exposed to price risk.

(c) Interest Rate Risk

As the municipality has significant interest-bearing liabilities, the entity's income and operating cash flows are substantially dependent on changes in market interest rates.

The municipality analyses its potential exposure to interest rate changes on a continuous basis. Different scenarios are simulated which include refinancing, renewal of current positions, alternative financing and hedging. Based on these scenarios, the entity calculates the impact that a change in interest rates will have on the surplus/deficit for the year. These scenarios are only simulated for liabilities which constitute the majority of interest bearing liabilities.

The municipality did not hedge against any interest rate risks during the current year.

The potential impact on the entity's surplus/deficit for the year due to changes in interest rates were as follow:	2015 R	2014 R
0.5% (2014 - 0.5%) Increase in interest rates	(11 031)	(30 769)
0.5% (2014 - 0.5%) Decrease in interest rates	11 031	30 769

(d) Credit Risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the municipality to incur a financial loss.

Credit risk consist mainly of cash deposits, cash equivalents, trade and other receivables and unpaid conditional grants and subsidies.

Receivables are disclosed net after provisions are made for impairment and bad debts. Trade debtors comprise of a large number of ratepayers, dispersed across different sectors and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Credit risk pertaining to trade and other debtors is considered to be moderate due the diversified nature of debtors and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

The credit quality of receivables are further assessed by grouping individual debtors into different categories with similar risk profiles. The categories include the following: Bad Debt, Deceased, Good payers, Slow payers, Government Departments, Debtors with Arrangements, Indigents, Municipal Workers, Handed over to Attorneys and Untraceable account. These categories are then impaired on a group basis based on the risk profile/credit quality associated with the group.

The ageing of amounts past due and not impaired is as follows:

	Non-Exchange Receivables R	Exchange Receivables R	Total R
2015	"		"
1 month past due 2 + month past due	211 101	2 088 716 6 656 806	2 299 817 6 656 806
Total	211 101	8 745 522	8 956 623
2014			
1 month past due 2 + month past due	694 551	1 886 692 7 523 307	2 581 243 7 523 307
Total	694 551	9 409 999	10 104 551

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

47 FINANCIAL RISK MANAGEMENT (CONTINUED)

All rates and services are payable within 30 days from invoice date. Refer to note 20 and 21 for all balances outstanding longer than 30 days. These balances represent all debtors at year end which defaulted on their credit terms.

D - I		4 .			and the second
Balances	past	aue	not	ımc	airea:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

47 FINANCIAL RISK MANAGEMENT (CONTINUED)

The entity only deposits cash with major banks with high quality credit standing. No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although the credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure are disclosed below.

The entity only enters into non-current investment transactions with major banks with high quality credit standing. Although the credit risk pertaining to non-current investments are considered to be low, the maximum exposure are disclosed below.

The banks utilised by the municipality for current and non-current investments are all listed on the JSE. The credit quality of these institutions are evaluated based on their required SENS releases as well as other media reports. Based on all public communications, the financial sustainability is evaluated to be of high quality and the credit risk pertaining to these institutions are considered to be low.

The risk pertaining to unpaid conditional grants and subsidies are considered to be very low. Amounts are receivable from national and provincial government and there are no expectation of counter party default

Long-term Receivables and Other Debtors are individually evaluated annually at the Statement of Financial Position date for impairment.

Financial assets exposed to credit risk at year end are as follows:	2015 R	2014 R
Long term receivables Trade receivables and other receivables Cash and Cash Equivalents Unpaid conditional grants and subsidies	1 735 478 40 759 381 15 048 617 1 614 319	3 676 587 30 088 011 11 937 136 670 378
	59 157 796	46 372 112

(e) Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying business, the treasury maintains flexibility in funding by maintaining availability under credit lines.

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an ongoing review of future commitments and credit facilities.

The table below analyses the entity's financial liabilities into relevant maturity groupings based on the remaining period at the financial year end to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

	Less than 1 year	Between 1 and 5 years	Between 5 and 30 years

54.2 Related Party Loans

Since 1 July 2004 loans to councillors and senior management employees are not permitted. Loans granted prior to this date, together with the conditions, are disclosed in note 18 to the Annual Financial Statements.

54.3 Compensation of key management personnel

The compensation of key management personnel is set out in note 28 to the Annual Financial Statements.

54.4 Other related party transactions

The following purchases were made during the year where Councillors or Management have an interest:

Councillor/Staff Member

Mr. T Prince (a council member of the Beaufort West Municipality) is the president of Beaufort West Local Football Association. The property on which the Football Association is built belongs to the municipality and is leased to the Football Association at an annual amount of R36,000. At 30 June 2015 an amount of R216 056 was outstanding in respect of the lease payments. Further interests include the Central Karoo Soccer and Rustdene Sportpub with outstanding balances amounting to R837 829.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

55 FINANCIAL SUSTAINABILITY

The indicators or conditions that may, individually or collectively, cast significant doubt about the going concern assumption are as follows:

Financial Indicators

The current ratio increased to 1.17:1 from 1.07:1 in the prior year.

The municipality have budgeted for a surplus of R29 941 066 for the 2014/2015 financial year. The municipality is also budgeting for net surpluses of R4 464 720 and R3 369 287 for 2015/2016 and 2016/2017 respectively.

The average debtors' payment days increased to 427 days from 295 days.

A bank overdraft facility is utilised amounting to R 5 000 000.

The outstanding balances in respect of external loans amounts to R12 028 075 (2014 - R13 544 430)

Other Indicators

Possible outflow of recources due the contingent liability disclosed in note 52

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Disclosure of error in the annual report: The municipality erroneously published the incorrect version of the 2013/14 annual financial statements as part of the annual report of 2013/14. The document was corrected and this note is merely disclosing the fact and impact thereoff on the comparitive numbers.

ANNEXURE B REPORT OF THE AUDITOR GENERAL

Report of the Auditor-General to the Western Cape Provincial Parliament and the council on Beaufort West Municipality

Report on the financial statements

Introduction

1. I have audited the financial statements of the Beaufort West Municipality set out on pages 1 to 122, which comprise the statement of financial position as at 30 June 2015, the statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget information with actual information for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA), and the Division of Revenue Act of South Africa, 2014 (Act No. 10 of 2014) (DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-general's responsibility

- 3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- 4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
- 5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements present fairly, in all material respects, the
financial position of the Beaufort West Municipality as at 30 June 2015 and its
financial performance and cash flows for the year then ended, in accordance with SA
standards of GRAP and the requirements of the MFMA and DoRA.

Emphasis of matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Revision of the previously issued financial statements

8. Note 56 to the financial statements indicates that the previously issued financial statements for the year ended 30 June 2014, on which I issued an auditor's report dated 28 November 2014, were incorrect and have been reissued.

Restatement of corresponding figures

 As disclosed in note 39 to the financial statements, the corresponding figures for 30 June 2014 have been restated as a result of errors discovered during 2014-15 in the financial statements of Beaufort West Municipality at, and for the year ended, 30 June 2014.

Material losses

10. As disclosed in note 44.4 to the financial statements, the municipality had material water losses of 50.32% or 1 391 276 kilolitres during the year under review.

Material impairments

- 11. As disclosed in note 21 to the financial statements, material losses to the amount of R40 million were provided for by the municipality as a result of the impairment of irrecoverable trade receivables.
- 12. As disclosed in note 32 to the financial statements, material losses to the amount of R3 million were incurred as a result of impairment of capitalised restoration costs.

Material under-spending of the budget

13. As disclosed in note 44 to the financial statements, the municipality has materially underspent its capital budget to the amount of R19 million.

Additional matters

14. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Unaudited supplementary schedules

15. The supplementary information set out on pages 123 to 134 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

Unaudited disclosure notes

16. In terms of section 125(2)(e) of the MFMA the municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and accordingly I do not express an opinion thereon.

Report on other legal and regulatory requirements

17. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report findings on the reported performance information against predetermined objectives for selected objectives presented in the annual performance report, compliance with legislation and internal control. The objective of my tests was to identify reportable findings as described under each subheading, but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

Predetermined objectives

- 18. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the following selected objective presented in the annual performance report of the municipality for the year ended 30 June 2015:
- Basic service delivery and infrastructure development on pages 55 to 61
- 19. I evaluated the reported performance information against the overall criteria of usefulness and reliability.
- 20. I evaluated the usefulness of the reported performance information to determine whether it was presented in accordance with the National Treasury's annual reporting principles and whether the reported performance was consistent with the planned objectives. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's Framework for managing programme performance information.
- 21. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
- 22. I did not identify any material findings on the usefulness and reliability of the reported performance information for the following objective: Basic service delivery and infrastructure development.

Additional matters

23. Although I identified no material findings on the usefulness and reliability of the reported performance information for the selected objective, I draw attention to the following matters:

Achievement of planned targets

24. Refer to the annual performance report on pages 55 to 61 for information on the achievement of the planned targets for the year.

Adjustment of material misstatements

25. I identified material misstatements in the annual performance report submitted for auditing on the reported performance information for Basic service delivery and infrastructure development. As management subsequently corrected the misstatements, I did not identify material findings on the usefulness and reliability of the reported performance information.

Compliance with legislation

26. I performed procedures to obtain evidence that the municipality had complied with applicable legislation regarding financial matters, financial management and other related matters. My findings on material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA, are as follows:

Budgets

27. Expenditure was incurred in excess of the limits of the amounts provided for in the votes of the approved budget, in contravention of section 15 of the MFMA.

Annual financial statements

28. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA. Material misstatements of non-current assets, current assets, current liabilities and disclosure items identified by the auditors in the submitted financial statement were subsequently corrected and/or the supporting records were provided subsequently, resulting in the financial statements receiving an unqualified audit opinion.

Audit committees

- 29. The audit committee did not advise the council on matters relating to internal financial control and internal audits, risk management, accounting policies, effective governance, performance management, performance evaluation, adequacy, reliability and accuracy of financial reporting and compliance with legislation as required by section 166(2)(a) of the MFMA.
- 30. The audit committee did not advise the council on matters relating to the adequacy, reliability and accuracy of financial reporting and information, as required by section 166(2)(a)(iv) of the MFMA.

- 31. The audit committee did not advise the council on matters relating to compliance with legislation, as required by section 166(2)(a)(vii) of the MFMA.
- 32. The audit committee did not respond to the council on the issues raised in the audit reports of the Auditor-General, as required by section 166(2)(c) of the MFMA.
- 33. The audit committee did not review the annual financial statements to provide the council with an authoritative and credible view of the financial position of the entity, its efficiency and effectiveness and its overall level of compliance with legislation, as required by section 166(2)(b) of the MFMA.
- 34. The performance audit committee did not submit, at least twice during the financial year, an audit report on the review of the performance management system to the council, as required by Municipal planning and performance management regulation 14(4)(a)(iii).
- 35. The performance audit committee did not make recommendations to the council, as required by Municipal planning and performance management regulation 14(4)(a)(ii).

Internal audit

36. The internal audit unit did not advise the accounting officer or report to the audit committee on matters relating to compliance with the MFMA, the DoRA and other applicable legislation, as required by section 162(2)(b)(vii) of the MFMA.

Human resource management

- 37. An acting Director Community Services was appointed for a period of more than six months in contravention of section 56(1) of the Municipal Systems Act, 2000 (Act No 32 of 2000) (MSA).
- 38. The municipality did not submit a report on compliance with prescribed competency levels to the National Treasury and relevant provincial treasury as required by the Regulations on Minimum Competency Levels 14(2)(a).
- 39. The competencies of all financial officials and supply chain management (SCM) officials were not assessed in a timely manner in order to identify and address gaps in competency levels as required by Municipal Regulations on Minimum Competency Levels 13.
- 40. The Director: Financial Services and Director: Corporate Services were appointed without having met the prescribed minimum competency levels as required by section 56(1)(b) of the MSA.

Asset management

41. Capital assets were permanently disposed without the approval of the council and the accounting officer as required by section 14(2)(a) of the MFMA.

Expenditure management

42. Reasonable steps were not taken to prevent unauthorised expenditure as required by section 62(1)(d) of the MFMA.

Consequences management

- 43. Unauthorised and irregular expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(a)(ii) of the MFMA.
- 44. Authorisation of unauthorised expenditure was not done through an adjustment budget, as required by section 32(2)(a)(i) of the MFMA.

Conditional grants and transfers

45. The municipality did not evaluate its performance in respect of the programmes funded by the Municipal Infrastructure Grant allocation, the Municipal Systems Improvement Grant allocation and the Local Government Financial Management Grant allocation, as required by section 12(5) of the DoRA.

Procurement and contract management

46. Goods and services with a transaction value of below R200 000 were procured without obtaining the required price quotations as required by SCM regulation 17(a) & (c).

Internal control

47. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with legislation. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on non-compliance with legislation included in the report.

Leadership

48. The accounting officer did not exercise adequate oversight over financial reporting, and related internal control processes and in addition did not ensure a proper review of the financial statements prior to their submission for audit resulting in errors not being identified and corrected in the financial statement disclosures. Management did not identify and mitigate the risk of unauthorised expenditure as part of its budget and expenditure management. In respect to human resource management, an acting director community services was appointed for a period of more than six months. Management have not implemented sufficient documented policies and procedures to guide the operations of the municipality, resulting in numerous instances of noncompliance with the MSA, the MFMA and the SCM Regulations.

Financial and performance management

49. The financial statements submitted to audit contained numerous misstatements. This was mainly due to staff members not fully understanding the requirements of the financial reporting framework. Management failed to comply with the Municipal Regulations on Minimum Competency Levels. Management failed to review and effectively monitor the performance of consultants and the status of accounting functions that are contracted out. Systems to ensure compliance with laws and regulations have not been put in place and alternative review and monitoring by management has not occurred.

Governance

50. There is no internal audit department at year-end. The work performed by the internal auditor for the year under review was not reviewed by a senior manager. The audit committee did not report to council for the year under review. The audit committee did not carry out its duties as set out in section 166(2)(a), (b) and (c) of the Municipal Finance Management Act. Appropriate risk management activities were not adopted by the municipality to ensure that a regular risk assessment in respect of performance information and compliance with laws and regulations are conducted and that a risk strategy to address the risks is developed and monitored.

Other reports

Investigations

51. An independent consulting firm performed an investigation at the request of the acting municipal manager at the time, into the alleged irregular activities regarding the processing of traffic fines. The investigation was concluded in the prior year and the report was made available in the current year. Additional irregular expenditure was identified as a result and disclosed in the financial statements.

			Use of Consultants	Use of Consultants						
105	99	1	Internal control deficiencies	In respect of the use of consultants: A policy is not in place that defines the main purposes and objective for appointing consultants. A policy/strategy is not in place that includes measures to address over reliance on consultants. Management did not implement action plans to address weaknesses on the use and management of consultants which were reported by external audit in the prior year. Management does not review, at least on an annual basis, whether the objectives of the institution are better achieved through use of consultants or permanent staff. Management information that analyses the extent of the use of consultants, including information on consultants that are appointed to supplement or replace existing capacity to perform normal operational functions is not prepared.	Administrative matters Internal Control Deficiency	1	The accounting officer must exercise oversight responsibility over compliance with laws and regulations and internal control. Policies and systems developed by management must support he legislative requirements of the MFMA and SCM regulations with regards to the appointment and use of consultants.	CFO	N/A	75%
		2		In respect of Mubesko Africa: Inspected the service level agreement (SLA) and confirmed that the details regarding transfer of skills does not include details regarding employees to be trained, skills to be transferred or monitoring and evaluation arrangements. By inspection of the SLA it was confirmed that the SLA does not include measures to monitor the transfer of skills in the project. As per inspection of the SLA, it was confirmed that no employees were identified to be trained and are available to attend the training programme. There is no formal evidence of skills transfer. As per inspection of the SLA, it was confirmed that performance monitoring is not included as part of the contract	Administrative matters Internal Control Deficiency	1	The accounting officer must exercise oversight responsibility over compliance with laws and regulations and internal control. Policies and systems developed by management must support the legislative requirements of the MFMA and SCM regulations with regards to the appointment and use of consultants.	CFO	N/A	75%
		3		In respect of Ignite Advisory Services: The last formal needs assessment was performed in 2009. No formal needs assessment was undertaken by management subsequent to 2009 in respect of the appointment of Ignite. The SLA does not include detail about the skills to be transferred or the monitoring and evaluation arrangements. By inspection of the SLA it was confirmed that the SLA does not include measures to monitor the transfer of skills in the project. The SLA provides for the training of the Performance Management/Audit Committees - as per discussion with management, employees were trained to work on the performance managenent system for the completion of the SDBIP firstly, the municipality does not have a performance manager. The audit committee did not receive any training and lastly, no formal evidence is available of skills transfer. The end date as per the SLA was 31 July 2009 — the agreement with Ignite Advisory Services is therefore outdated. As per inspection of the SLA, it was confirmed that performance monitoring is not included a spart of the contract. As per discussions held with management, the performance of Ignite is monitored before payment is made; however, there is no formal evidence of	Administrative matters Internal Control Deficiency	1	The accounting officer must exercise oversight responsibility over compliance with laws and regulations and internal control. Policies and systems developed by management must support the legislative requirements of the MFMA and SCM regulations with regards to the appointment and use of consultants.	CFO	N/A	75%
		4		In respect of Worley Parsons: Inspected the contract and noted that measures to monitor contract performance and delivery have not been defined and implemented. Inspected the contract and noted that measures to monitor contract performance and delivery have not been defined and implemented. Management was unable to supply the auditors with sufficient information as to confirm whether the work of the consultant was monitored by a staff member who is sufficiently senior to ensure that work is performed and the progress made is effective	Administrative matters Internal Control Deficiency	1	The accounting officer must exercise oversight responsibility over compliance with laws and regulations and internal control. Policies and systems developed by management must support the legislative requirements of the MFMA and SCM regulations with regards to the appointment and use of consultants.	CFO	N/A	75%
